

## CODE NUMBER

3362110

## DESCRIPTION

4" Trim Plate, Battery Power Supply, Below Deck Manual Mixing Valve, Polished Chrome Finish, 0.5 gpm, Multi-Laminar Spray, Infrared Sensor, Sloan® Battery-Powered Deck-Mounted Low Body Faucet.

## DETAILS

- Flow Rate: 0.5 gpm (2 Lpm) (0.5GPM)
- Spray Type: Multi-Laminar (MLM)
- Spout Type: Pedestal ( )
- Sensor Type: Infrared (IR)
- Mounting Type: Single Hole ( )
- Trim Plate: 4" (102mm) (4)
- Power Supply: Battery (BAT)
- Temperature Mixer: Below Deck Manual Mixing Valve (BDM)
- Finish: Polished Chrome (CP)
- Factory Default Timeout: 30s
- Factory Default GPC: 0.25

## FEATURES

Commercial Grade, ADA Compliant, Electronic, Sensor-Activated, Brass Pedestal Hand Washing Faucet with the following features:

- Adjustable Infrared Sensor Range
- 36" (914 mm) Long Sensor Cable
- 24" (610 mm) Long Flex Hose
- Filtered Solenoid Valve with serviceable Strainer Filter
- Includes Four (4) AA-size Batteries
- Includes appropriate Mounting Hardware

## ELECTRICAL SPECIFICATIONS

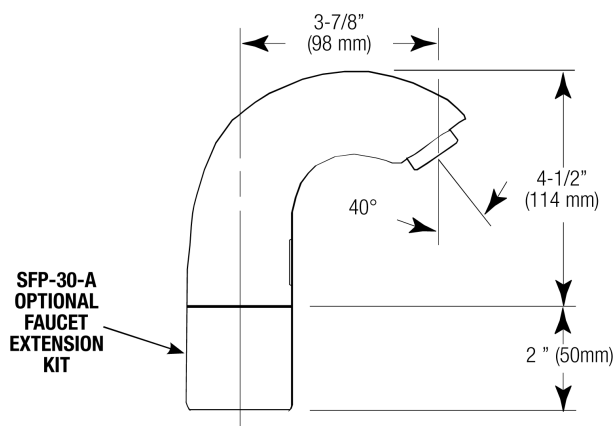

- Battery Life: 2 years 8,000 cycles/month
- Sensor Range: 4"-12" (102-305mm)
- Timeout Adjustment Settings: 30s

## Details

Install a convenient and useful water fixture in your business with the Waterloo FSS8 wall-mounted service sink faucet with 8" centers! Waterloo faucets provide the industry-leading quality you expect. With heavy chrome-plated brass faucet bodies, ceramic cartridges engineered for durability, and certifications from a wide range of national and local regulatory agencies, you can install this model with confidence. And to give you total peace of mind, it comes with a 3-year replacement warranty.

This faucet features 8" centers with built-in service stops. It also has vacuum breakers that prevent water backflow. The sturdy lever handle design makes it easy to turn the water flow off and on. This fixture is excellent for busy restaurant kitchens, school cafeterias, or bars. Additionally, the pail hook built into the nozzle provides extra convenience while cleaning.

**Overall Dimensions:**

Centers: 8"

Nozzle Length: 2 1/2"

Height: 3 3/4"

Clearance: 1 3/4"

Features	Lead Free
Flow Rate	2 GPM
Handle Type	Lever
Mounting Style	Wall Mounted
NSF Listed	Yes
Type	Faucets
Water Inlet Size	1/2 Inches

#### Customer questions about this product

##### What measurements do I need to install a faucet?

When installing a faucet, these are some of the most common measurements you'll need:

**Faucet Centers:** If your faucet has a base with 2 inlets, measure the distance from the center of one inlet to the center of the other. This number must match the spacing of your building's water lines (adjustable centers will help with the spacing). If mounting through the backsplash on a sink, the center measurement must also fit within the pre-drilled mounting holes.

**Flex Hoses:** If your faucet has flex hoses make sure that they will reach your building's water lines.

**Spout length:** Make sure that the faucet spout will fit comfortably over your sink bowl and not extend too far / not far enough. If you plan to use a swing spout over a multi-bowl sink, make sure it will reach all of the bowls.

##### Is this product certified for the Commonwealth of Massachusetts?

This product is certified for use in the Commonwealth of Massachusetts.

## Details

Keep your staff safe by eliminating heavy lifting of mop buckets with this one compartment floor mop sink from Regency Tables and Sinks. The bowl is made of high-quality 16-gauge type 304 stainless steel for reliable service. This gauge is thicker and much more durable than many similar sinks available that are made of 18-gauge stainless steel. Additionally, type 304 stainless steel is exceptionally corrosion-resistant and easy to clean! It also has TIG welded areas, which are blended to match adjacent surfaces to a satin-smooth finish.

The 24" x 24" x 6" compartment offers rounded corners and ample space to conveniently wash your mop. In addition, the drain includes a 3 1/2" basket strainer to eliminate the possibility of clogging. By regularly maintaining your drainage system, you will cut down on possible service and replacements costs.

Thanks to the high sides, water splashes will be confined inside the sink and then directly drip down into the drain. This added feature helps maintain the integrity of your wall and floor to keep your establishment in its best condition. Perfect for use in any restaurant kitchen or dish room, this floor mop sink gives you a convenient and sanitary way of disposing dirty water and other liquids.

### Overall Dimensions:

Left to Right: 29"

Front to Back: 29"

## Customer questions about this product

### What is a mop sink?

Janitorial staff use mop sinks to fill and empty mop buckets and clean mops and other supplies. Typically, commercial mop sinks are mounted on the floor.

### How do you connect a mop sink?

To begin, cut a portion out of the current drainpipe and install a wye fitting to connect your sink drain. Rough the trap assembly together using PVC pipe and attach it to the wye fitting. Use mounting brackets to fasten the sink to the wall. Insert the sink's tailpiece into the PVC trap and tighten the tailpiece's nut to secure the pipe. Apply plumber's putty under the faucet and tighten the nuts below the sink deck to secure it. Finally, connect flexible PEX piping to the hot and cold supply lines

### How do you snake out a commercial floor sink?

To snake out a commercial floor sink, put on leather work gloves and remove the drain cap. Plumbing snakes usually come in several sizes, so begin by using the smallest snake first. Insert the business end of the snake into the drain and feed it into the drain as far as it will go. Usually, you will feel when it hits the clog. Push the snake further into the clog and start turning the handle. Once the water drains, you know that the clog is gone. If the water isn't draining, try a bigger snake. After the clog is removed, pull the snake out and pour a half-gallon of hot water down the drain to wash away any remaining residue.
