Kimmel-Bogrette.com

Project Name: MSMC – Guzman Hall

RFI #: 3

Date: 9.23.2021

Company: Mid Hudson Construction Management

Name: Kyle Cuomo

Question:

Please confirm the fire protection scope. There are fire protection specifications, but none is shown on the drawings. Is the scope merely relocation of existing heads in the new ceilings? Or does all of the existing branch piping get removed and replaced with new? Is the addition to be sprinklered? Please advise.

Answer:

Please see clarification in Addendum #1.
