3.12.10 The Contractor shall direct specific attention, in writing or on resubmitted shop drawings, product data, samples or similar submittals, to revisions other than those requested by the Architect/Engineer on previous submittals.

However, if the Contractor has reason to believe that the required design, process or product is an infringement of a patent, the Contractor shall be responsible for such loss unless such information is promptly furnished to the Architect/Engineer.

3.18 INDEMNIFICATION

3.18.1 To the fullest extent permitted by law, the Contractor shall defend, indemnify, save and hold harmless the Owner, Architect/Engineer, Architect's/Engineer's consultants, and agents and employees of any of them from and against claims, damages, losses and expenses, including but not limited to attorneys' fees, arising out of or resulting from the performance of the Work, including loss of use, but only to the extent caused in whole or in part by negligent acts or omissions of the Contractor, or its Subcontractor, or anyone directly or indirectly employed by them or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss or expense is caused in part by a party indemnified hereunder.

3.18.2 In claims against any person or entity indemnified by an employee of the Contractor, a Subcontractor, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, this indemnification obligation shall not be limited by a limitation on amount or type of damages, compensation or benefits payable by or for the Contractor or a Subcontractor under workers' compensation acts, disability benefit acts or other employee benefit acts.

ARTICLE 4 - ADMINISTRATION OF THE CONTRACT

4.1 ARCHITECT/ENGINEER

4.1.1 The Architect/Engineer is a person or entity lawfully licensed to practice architecture or engineering and is identified as such in this Contract and is referred to throughout the Contract Documents as if singular in number. The term "Architect/Engineer" means the Architect or the Engineer or the Architect's or Engineer's authorized representative.

4.1.2 Duties, responsibilities and limitations of authority of the Architect/Engineer as stated in the Contract Documents shall not be restricted, modified, or extended without the written consent of the Owner, Contractor and Architect/Engineer. The consent shall not be unreasonably withheld.

4.1.3 In case of termination of employment of the Architect/Engineer, the Owner shall appoint an architect or engineer whose status under the Contract Documents shall be that of the former architect/engineer.

4.1.4 The drawings, specifications and other documents prepared by the Architect/ Engineer are instruments of the Architect's/Engineer's services through which the Work to be executed by the Contractor is described. They are to be used only for this Project and are not used on any other project. Submission or distribution to meet official regulatory requirements, or other purposes connected with the project, is not construed as publication in derogation of the Architect's/Engineer's common-law copyright or other reserved rights.

4.2 THE OWNER'S REPRESENTATIVE

4.2.1 The Owner's Representative is the person or entity designated by the Owner to act on behalf of the Owner throughout the Project.

4.2.2 The Owner may change the Owner's Representative at any time, and written notice of such change shall be given to the Contractor.

4.2.3 All instructions to and communications from the Contractor to the Owner shall be forwarded through the Owner's Representative, with simultaneous notification to the Architect/Engineer.

4.2.4 The Owner's Representative shall maintain at the Site one record copy of all contracts, drawings, specifications, Addenda, change orders, and other modifications related to the Project, in good order and marked currently to record all changes made during construction, and approved shop drawings, product data and samples. These shall be available to the Architect/Engineer and the Contractor.

4.3 ADMINISTRATION OF THE CONTRACT

4.3.1 The Architect/Engineer and Owner's Representative shall provide administration of the Contract, and will represent the Owner during construction, and will have authority to act on behalf of the Owner, and will advise the Owner concerning the Work of the Contractor as to whether it is being performed in accordance with the Contract Documents.

4.3.2 The Architect/Engineer shall visit the Site at intervals appropriate to the stage of construction to determine the progress and quality of the completed Work, and determine if the Work is being performed according to the Contract Documents. However, the Architect/Engineer is not required to make exhaustive or continuous on-Site observations to check the quality or quantity of the Contractor's Work. Based on its on-Site observations, the Architect/Engineer will keep the Owner informed of the progress of the Work. Nothing contained herein shall limit or modify the obligations of the Architect/Engineer to the Owner, as established by the agreement between them.

4.3.3 Subject to the Contract Documents and the schedule of the Work, the Contractor shall be solely responsible for the construction means, methods, techniques, sequences of procedures, or for safety precautions and programs in connection with the Work. The Architect/Engineer and the Owner shall not be responsible for the Contractor's failure to carry out the Work in accordance with the Contract Documents, or for acts or omissions of the Contractor, Subcontractors, or their agents, employees, or of any other persons performing portions of the Work.

4.3.4 The Architect/Engineer and the Owner shall at all times have access to the Work wherever it is in preparation and progress. The Contractor shall provide facilities for such access so that the Architect/Engineer and the Owner's Representative may perform their functions under the Contract Documents.

4.3.5 The Owner shall oversee the scheduling and coordinating of the Work of all contractors on the Project, including their use of the Site, including coordinating the Work of all contractors on the Site. The Owner shall keep the contractors informed of the Project Construction Schedule to enable the contractors to plan and perform the work properly. The Contractor shall be responsible for coordinating the Work with the contractors who the Work may impact. Each contractor that has the prime responsibility in each scope of the Work shall be responsible for the coordination drawings in such scope.

4.3.6 Either the Architect/Engineer or the Owner shall have authority to reject Work that does not conform to the Contract Documents after consultation with the Owner and each other. Whenever the Architect/Engineer or the Owner considers it necessary or advisable for implementation of the intent of the Contract Documents, either the Architect/Engineer or the Owner shall have authority to require additional inspection or testing of the Work in herewith, whether or not such Work is fabricated, installed or completed. However, neither the Architect's/Engineer's or the Owner authority to act, nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to any duty or responsibility of the Architect/Engineer or the Owner to the Contractor, Subcontractors, materials and equipment suppliers, their agents or employees, or other person performing portions of the Work.

4.3.7 The Architect/Engineer shall review and take other appropriate action upon the Contractor's submittals such as shop drawings, product data and samples, but only for the limited purpose of checking for conformance with the information given and the design concept expressed in the Contract Documents. The Architect's/Engineer's action shall be taken with reasonable promptness to cause no delay in the Work or the Owner, Contractor, or separate contractors' activities while allowing sufficient time in the Architect's/Engineer's professional judgment to permit adequate review. Review of such submittals is not conducted to determine the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment or systems, all of which remain the Contractor's responsibility as required by the Contract Documents. The Architect's/Engineer's review of the Contractor's submittals shall not relieve the Contractor of the obligations hereunder. The Architect's/Engineer's review shall not constitute approval of safety precautions or, unless otherwise explicitly stated by the Architect/Engineer, of any construction means, methods, techniques, sequences or procedures. The Architect's/Engineer's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

ARTICLE 5 - SUBCONTRACTORS

5.1 DEFINITIONS

5.1.1 “Subcontractor” means a person or entity that has an agreement with the Contractor to perform a portion of the Work at the Site or supply materials to the Site, not including a separate contractor or Subcontractor of an independent contractor. References to "Subcontractor" throughout the Contract Documents are singular in number and means a Subcontractor or an authorized representative of such Subcontractor.

5.1.2 The Contractor’s use of Subcontractors shall not diminish the Contractor’s obligations to complete the Work in accordance with the Contract. The Contractor shall control and coordinate the Work of its Subcontractors.

5.2 AWARD OF SUBCONTRACTS AND OTHER CONTRACTS FOR PORTIONS OF THE WORK

5.2.1 Unless otherwise stated in the Bidding Requirements, the Contractor, as soon as practicable after the award of the Contract, shall furnish the Owner and Architect/Engineer, in writing, the names of all Subcontractors and sub-Subcontractors proposed for each portion of the Work. The Owner and Architect/Engineer shall promptly reply to the Contractor, in writing, whether or not either party, after due investigation, has reasonable objection to any such Subcontractor or sub-Subcontractor. Failure to reply promptly shall constitute notice of no reasonable objection.

5.2.2 The Contractor shall not contract with a Subcontractor or sub-Subcontractor to whom the Owner or Architect/Engineer has made reasonable and timely objection. The Contractor shall not be required to contract with anyone to whom the Contractor has made reasonable objection.

5.2.3 If the Owner or Architect/Engineer has reasonable objection to a Subcontractor or sub-Subcontractor proposed by the Contractor, the Contractor shall propose another to whom the Owner or Architect/Engineer has no reasonable objection. No increase in the Contract Sum shall be allowed for such a change.

5.2.4 The Contractor shall not change a Subcontractor or a sub-Subcontractor, person or entity previously selected if the Owner, Architect/Engineer or Owner’s Representative makes reasonable objection to such change.

5.3 SUBCONTRACTUAL RELATIONS

5.3.1 By appropriate written agreement, the Contractor shall require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities which the Contractor, by these documents, assumes toward the Owner, Architect/Engineer and Owner's Representative. Each subcontract agreement shall preserve and protect the rights of the Owner, Architect/Engineer and Owner's representative under the Contract Documents concerning the Work to be performed by the Subcontractor, so that subcontracting thereof will not prejudice such rights, and shall allow to the Subcontractor, unless expressly provided otherwise in the subcontract agreement, the benefit of all rights, remedies and redress against the Owner. Where appropriate, the Contractor shall require each Subcontractor to enter into similar agreements with sub-Subcontractors. The Contractor shall make available to each proposed Subcontractor, before the execution of the subcontract agreement, copies of the Contract Documents to which the Subcontractor will be bound, and, upon written request of the Subcontractor, identify to the Subcontractor terms and conditions of the proposed subcontract agreement which may be at variance with the Contract Documents. Subcontractors shall similarly make copies of applicable portions of such documents available to their respective proposed sub-Subcontractors.

5.3.2 The Contractor shall be responsible for informing its Subcontractors and suppliers of all the terms, conditions and requirements of the Contract Documents including, but not limited to the General Conditions and changes made by Addenda.

5.4 CONTINGENT ASSIGNMENT OF SUBCONTRACTORS

5.4.1 The Contractor assigns each subcontract agreement for a portion of the Work to the Owner provided that:

5.4.1.1 Such assignment is effective only after the termination of the Contract in accordance with hereto, and only for those subcontract agreements which the Owner accepts by notifying the Subcontractor in writing; and

5.4.1.2 Such assignment is subject to the prior rights of the surety, if any, obligated under bond relating to the Contract.

5.4.2 The Contractor shall promptly submit to the Owner a copy of each subcontract upon execution of the same. Each subcontract shall contain a contingent assignment of the subcontract to the Owner, consistent with this section.

5.5 RIGHT TO PAY SUBCONTRACTOR

5.5.1 In the event of any default hereunder by the Contractor, or if the Owner or Architect/Engineer fails to approve any Application for Payment that is not the fault of a Subcontractor, the Owner may make direct payment to the Contractor's Subcontractor, less appropriate retainage. In that event, the amount paid to the Subcontractor shall be deducted from the payment to the Contractor.

ARTICLE 6 - CONSTRUCTION BY OWNER OR BY SEPARATE CONTRACTORS

6.1 OWNER'S RIGHT TO PERFORM CONSTRUCTION OR BY SEPARATE CONTRACTS

The Owner reserves the right to perform construction or operations related to the Project with the Owner's forces and award separate contracts in connection with other portions of the Project or other construction or operations on the Site. If the Contractor claims that delay or additional cost is involved because of such action by the Owner, the Contractor shall make such claim as provided elsewhere in the Contract Documents.

6.2 MUTUAL RESPONSIBILITY

6.2.1 The Contractor shall afford the Owner and separate Contractors reasonable opportunity for introduction and storage of their materials and equipment and performance of their activities and shall connect and coordinate the Contractor's construction and operations with theirs, as required by the Contract Documents.

6.2.2 If part of the Contractor's Work depends for proper execution or results upon construction or operations by the Owner or a separate contractor, the Contractor shall, before proceeding with that portion of the Work, promptly report to the Architect/Engineer apparent discrepancies or defects in such other construction that would render it unsuitable for such proper execution and results. Failure of the Contractor to report shall constitute an acknowledgment that the Owner's or the Contractor's completed or partially completed construction is fit and proper to receive the Contractor's Work, except as to defects not then reasonably discoverable.

6.2.3 Costs caused by delays, improperly timed activities, or defective construction shall be borne by the Contractor responsible, therefore subject to the provisions of the Contract Documents. The parties intend that this Contract and each Owner-Contractor agreement for the Project imposes reciprocal obligations on the Contractor and each other Contractor to properly connect and coordinate its Work with other contractors and, therefore, each Contractor shall have the right to take appropriate legal action against another Contractor for that Contractor's failure to perform.

6.2.4 The Contractor shall promptly remedy damage wrongfully caused by the Contractor to completed or partially completed construction or property of the Owner or separate contractors.

7.1.1 7 A Change Order shall be based upon agreement among the Owner, Contractor, and the Architect/Engineer, a Construction Change Directive requires authorization by the Owner and the Architect/Engineer, and may or may not be agreed to by the Contractor; an Order for a Minor Change in the Work may be issued by the Architect/Engineer or the Owner alone.

7.2.1.3 the extent of the adjustment in the Contract time, if any.

7.3 CONSTRUCTION CHANGE DIRECTIVES

7.3.1 A Construction Change Directive is a written order signed by the Owner, with the approval of the Architect/Engineer, directing a change in the Work and stating a proposed basis for adjustment, if any, in the Contract Sum or Contract time, or both. The Owner may, by Construction Change Directive, without invalidating the Contract, order changes in the Work within the general scope of the Contract, including additions, deletions, the Contract Sum, and Contract time.

7.3.2 A Construction Change Directive shall be used in the absence of total agreement on the terms of a Change Order. A Construction Change Directive signed by the Contractor indicates the Contractor's agreement to such Construction Change Directive, including adjustment in Contract Sum and Contract time, or the method for determining them. Such agreement shall be effective immediately and shall be recorded as a Change Order.

7.3.3 If the Construction Change Directive provides for an adjustment to the Contract Sum, the adjustment shall be based on one of the following methods, to be determined by the Architect/Engineer:

7.3.3.1 mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation;

7.3.3.2 Unit Prices stated in the Contract Documents or subsequently agreed upon;

7.3.3.3 cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee; or

7.3.3.4 the actual cost or savings attributable to the change, including an allowance of twenty percent (20%) total, for overhead and profit unless otherwise agreed in writing by the parties.

7.3.4 Upon receipt of a Construction Change Directive, the Contractor shall promptly proceed with the change in the Work involved and advise the Owner of the Contractor's agreement or disagreement with the method, if any, provided in the Construction Change Directive for determining the proposed adjustment in the Contract Sum or contract time.

7.3.5 The Contractor shall keep and present, in such form as the Owner and Architect/Engineer may prescribe, an itemized accounting, together with the appropriate supporting data. Unless otherwise provided in the Contract Documents, costs for the purposes of this paragraph shall be limited to the following:

7.3.5.1 costs of labor, including social security, old age and unemployment insurance, fringe benefits required by agreement or custom, and worker's compensation insurance;

7.3.5.2 costs of materials, supplies and equipment, including the cost of transportation, whether incorporated or consumed;

7.3.5.3 rental costs of machinery and equipment, exclusive of hand tools, whether rented from Contractor or others;

7.3.5.4 costs of premiums for all bonds and insurance, permit fees and sales, use or similar taxes related to the Work; and

7.3.5.5 additional costs of field supervision directly attributable to the change.

7.3.6 Pending final cost determination to the Owner, amounts not in dispute may be included in Applications for Payment. The amount of credit to be allowed by the Contractor to the Owner for deletion or change which results in a net decrease in the Contract Sum shall be actual net cost with allowance for overhead and profit, as confirmed by the Owner, with approval of the Architect/Engineer. When both additions and credits covering related Work or substitutions are involved in a change, the allowance of twenty percent (20%) total, for overhead and profit, shall be figured based on the net increase, if any, concerning that change. No other markups shall be allowed and there shall be no markups on markups.

7.3.7 If the Owner and Contractor disagree with the adjustment to the Contract time or the method for determining it, the adjustment or the matter shall be referred to the Architect/Engineer for the final determination.

7.3.8 When the Owner and Contractor agree with the determination made by the Architect/Engineer concerning the adjustments in the Contract time, or otherwise reach agreement upon the adjustments, such agreement shall be effective immediately, and shall be recorded by preparation and execution of an appropriate change order.

7.4 MINOR CHANGES IN THE WORK

7.4.1 The Architect/Engineer, with the approval of the Owner, shall have the authority to order minor changes in the Work not involving adjustment in the Contract Sum or extension of the Contract time, and not inconsistent with the intent of the Contract Documents. This authority shall also apply to changes of an emergency nature, or where required to avoid unfavorable impact upon other contractors or interference with the operation of installed systems or equipment. Such changes shall be effected by written order and shall be binding on the Contractor. The Contractor shall carry out such written orders promptly.

ARTICLE 8 - UNCOVERING AND CORRECTION OF WORK

8.1 TESTS AND INSPECTIONS

8.1.1 Tests, inspections and approvals of portions of the Work required by the Contract Documents or by laws, ordinances, rules, regulations or orders of public authorities having jurisdiction shall be made at an appropriate time. Unless otherwise provided in the Contract Documents, the Contractor shall make arrangements for such tests, inspections and approvals with an independent testing laboratory or entity acceptable to the Owner, or with the appropriate public authority. The Contractor shall give the Architect/Engineer three (3) Days' notice of when and where tests and inspections are to be made so the Architect/Engineer may observe such procedures. The Owner shall bear the costs of all routine tests, inspections or approvals.

8.1.2 If the Architect/Engineer, Owner or public authorities having jurisdiction determine that portions of the Work require additional testing, inspection or approval not included above and not the result of the Contractor's failure to comply with the Contract Documents, the Architect/Engineer will, upon written authorization from the Owner, instruct the Contractor to make arrangements for such additional testing, inspection or approval by an entity acceptable to the Owner, and the Contractor shall give timely notice to the Architect/Engineer of when and where tests and inspections are to be made so the Architect/Engineer may observe such procedures. The Owner shall bear such costs except as provided below.

8.1.3 If such procedures for testing, inspection or approval reveal a failure of the portions of the Work to comply with requirements established by the Contract Documents, the Contractor shall bear all costs made necessary by such failure including those of repeated or additional testing and inspection, compensation for the Architect's/Engineer's services and expenses, and the costs of corrective or remedial Work.

8.1.4 Unless otherwise required by the Contract Documents, required certificates of testing, inspection or approval shall be secured by the Contractor and promptly delivered to the Architect/Engineer.

8.1.5 If the Architect/Engineer is to observe tests, inspections or approvals required by the Contract Documents, the Architect/Engineer will do so promptly and, where practicable, at the usual testing place.

8.1.6 Tests or inspections conducted in accordance with the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

8.2 UNCOVERING OF WORK

8.2.1 If a portion of the Work is covered contrary to the Architect's/Engineer's request or requirements expressed explicitly in the Contract Documents, it must, if required in writing by the Architect/Engineer, be uncovered for the Architect's/Engineer's observation and be replaced at the Contractor's expense without change in the Contract time.

8.2.2 If a portion of the Work has been covered which the Architect/Engineer has not explicitly requested to observe before it being covered, the Architect/Engineer may ask to see such Work, and the Contractor shall uncover it. If such Work is in accordance with the Contract Documents, costs of uncovering and replacement shall, by appropriate change order, be charged to the Owner. If such Work is not in accordance with the Contract Documents, the Contractor shall pay such costs unless the condition was caused by the Owner or by a separate Contractor, in which event the Owner shall be responsible for payment of such costs.

8.3 CORRECTION OF WORK

8.3.1 The Contractor shall promptly correct Work rejected by the Architect/Engineer or failing to conform to the requirements of the Contract Documents, whether observed before or after substantial completion, and whether or not fabricated, installed or completed. The Contractor shall bear the costs of correcting such rejected Work, including additional testing and inspections compensation for the Architect's/Engineer's services and expenses made necessary.

8.3.2 If, within one (1) year after the date of substantial completion of the Work or designated portion thereof, or after the date for commencement of warranties, or by terms of an applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, the Contractor shall correct it promptly after receipt of written notice from the Owner to do so unless the Owner has previously given the Contractor a written acceptance of such condition. This period of one year shall be extended concerning portions of Work first performed after substantial completion by the time between substantial completion and the actual performance of the Work. This obligation shall survive acceptance of the Work under the Contract and termination of the Contract. The Owner shall give such notice promptly after the discovery of the condition.

8.3.3 The Contractor shall remove from the Site portions of the Work that are not in accordance with the requirements of the Contract Documents and are neither corrected by the Contractor nor accepted by the Owner.

8.3.4 If the Contractor fails to correct nonconforming Work within a reasonable time, the Owner may stop the Work or correct it in accordance herewith. If the Contractor does not correct such nonconforming Work within a reasonable time fixed by written notice from the Architect/Engineer, the Owner may remove it and store the salvable materials or equipment at the Contractor's expense. If the Contractor does not pay costs of such removal and storage within ten (10) Days after written notice, the Owner may upon ten (10) Days written notice sell such materials and equipment at auction or private sale, and shall account for the proceeds thereof after deducting costs and damages that should have been borne by the Contractor, including compensation for the Architect's/Engineer's services and expenses made necessary thereby. If such proceeds of sale do not cover costs that the Contractor should have borne, the Contract Sum shall be reduced by the deficiency. If payment then or after that due the Contractor is not sufficient to cover such amount, the Contractor shall pay the difference to the Owner.

8.3.5 The Contractor shall bear the cost of correcting destroyed or damaged construction, whether completed or partially completed, of the Owner or separate Contractors caused by the Contractor's correction or removal of Work which is not in accordance with the requirements of the Contract Documents.

8.3.6 Nothing contained in this section shall be construed to establish a period of limitation with respect to other obligations, which the Contractor might have under the Contract Documents. Establishment of the time period of one year as described above relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations, other than specifically to correct the Work.

8.4 ACCEPTANCE OF NONCONFORMING WORK

8.4.1 If the Owner prefers to accept Work that is not in accordance with the requirements of the Contract Documents, the Owner may do so instead of requiring its removal and correction, in which case the contract sum shall be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

ARTICLE 9- TIME**9.1 PROGRESS AND COMPLETION**

9.1.1 Time limits stated in the Contract Documents are of the essence of the Contract. By executing this Contract, the Contractor confirms and agrees that the Contract time stated in this Contract is sufficient for performing the Work. In performing the Work, the Contractor shall emphasize on considerations that will aid in expediting the construction of the Project consistent with the construction standards and procedures of the Owner. The Contractor agrees to use all resources at its command so that the Project is completed on or before the established Project completion date, and to this end, it shall give constant attention to the adequacy of its own and each Subcontractor's planning, personnel, equipment and the availability of materials and supplies. The Contractor shall proceed expeditiously with adequate forces and shall achieve substantial completion within the Contract time.

9.1.2 The Contractor shall not knowingly, except by agreement or instruction of the Owner, in writing, prematurely commence operations on the Site or elsewhere before the effective date of insurance required by Article 11 to be furnished by the Contractor. The date of commencement of the Work shall not be changed by the effective date of such insurance.

9.2 DELAYS AND EXTENSIONS OF TIME

9.2.1 Claims relating to extensions of time shall be made in accordance with applicable provisions contained in this Contract. If the Contractor is delayed at any time in the progress of the Work by an act or neglect of the Owner or Architect/Engineer, or of an employee of either, or of a separate contractor employed by the Owner, or by changes ordered in the Work, or by labor disputes, fire, unusual delay in deliveries, unavoidable casualties or other causes beyond the Contractor's control, or by other causes which the Architect/Engineer determines may justify the delay, then the Contract time shall be extended by change order for such reasonable time as the Architect/Engineer or Owner may determine.

9.2.2 Before the Contractor's time extension request may be approved, the Contractor must, within five (5) Days after commencement of the condition that allegedly has caused or is causing delay, submit a written application to the Owner identifying:

- (a) the Contractor; the Contract registration number; and Project description;
- (b) liquidated damage assessment rate, if any, as specified in the Contract;
- (c) original Bid amount;
- (d) the original Contract start date and completion date;
- (e) any previous time extensions granted (number and duration);
- (f) the extension of time requested;
- (g) in addition, the application for extension of time shall be stated in detail and include:
 - i) the nature of each alleged cause of delay in completing the Work;
 - ii) the date upon which each such cause of delay began and ended and the number of Days attributable to each such cause;
 - iii. a statement that the Contractor waives all claims except for those delineated in the application, and the particulars of any claims which the Contractor does not agree to waive. For time
 - iv. extensions for substantial and final completion payments, the application shall include a detailed statement of the dollar amounts of each element of claim item reserved;
 - v. a statement indicating the Contractor's understanding that the time extension is granted only for the purpose of permitting continuation of contract performance and payment for Work performed and that the Owner retains its right to conduct an investigation and assess liquidated damages as appropriate in the future.

9.2.3 Notwithstanding certain exceptions, no claim for monetary damages or other compensation or any claim other than for an extension of time as herein provided shall be made or asserted against the Owner because of any delay in performance of this Contract occasioned by any act or omission of the Owner, the Owner's representative, the architect/engineer or other contractors, subcontractors, sub-subcontractors, material men, their employees or agents. This limitation against the Owner shall not affect the Contractor's right to assert a claim for delay damages against other Contractors as set forth herein.

9.3 EXTENSION FOR CONCURRENT CAUSES OF DELAY

9.3.1 The Contractor shall not be entitled to receive a separate extension of time for each of several causes of delay operating concurrently, but if at all, only for the actual period of delay in completion of the Work as determined by the Owner irrespective of the number of causes contributing to produce such delay. If one of several causes of delay operating concurrently results from any act, fault or omission of the Contractor or its Subcontractors or material-men, and would of itself (irrespective of the concurrent causes) have delayed the Work, no extension of time will be allowed for the period of delay resulting from such act, fault or omission. The determination made by the Owner on an application for an extension of time shall be binding and conclusive on the Contractor.

9.4 NOTICE OF CONDITIONS CAUSING DELAY

9.4.1 Within five (5) Days after the commencement of any condition which is causing or may cause a delay in completion, including conditions for which the Contractor may be entitled to an extension of time, the Contractor must notify the Owner in writing of the effect, if any, of such condition upon the previously approved Schedule, and must state why and in what respects, in any, the condition is causing or may cause such delay.

9.4.2 Failure by the Contractor to notify the Owner in writing may, at the discretion of the Owner, be deemed sufficient cause to deny any extension of time on account of delay in completion arising out of or resulting from such change, extra Work, suspension, or other condition, and shall constitute a waiver by the Contractor of all claims for damages for delay.

9.4.3 If and when appropriate, the Progress/Construction Schedule shall be revised by the Lead Contractor with approval of the Owner. The revised Progress/Construction Schedule shall be strictly adhered to by all Contractors.

9.5 LIQUIDATED DAMAGES

9.5.1 If the Contract Documents provide for liquidated damages for delay beyond the completion date stated in the Contract Documents, and if they are so assessed, then the Construction Manager or Owner may assess same against the Contractor in proportion to the Contractor's share of the responsibility for such delay. However, such an assessment shall not exceed the amount assessed against the Construction Manager or Owner.

9.5.2 Such assessment may be made in the month of the delay and shall be held by the Construction Manager or Owner until the Contractor is back on schedule and the delay occasioned thereby has been eliminated.

9.5.3 The liquidated damages will be assessed for each milestone for each Contractor who does not meet those milestone dates. The liquidated damages shall be \$3,000.00 per Day. This amount will be deducted from the monthly draw request in the period of which the delay occurs. The amount will be continually withheld until the Prime Contractor responsible for the delay gets the schedule back on track.

ARTICLE 10 - PAYMENTS AND CONDITIONS**10.1.1 CONTRACT SUM**

10.1.1 The Contract sum is stated in the Contract, including authorized adjustments, is the total amount payable by the Owner to the Contractor for the performance of the Work under the Contract Documents "Contract Sum".

10.2 SCHEDULE OF VALUES

10.2.1 Before the first Application for Payment, the Contractor shall submit to the Owner and Architect/Engineer, a schedule of values allocated to various portions of the Work, prepared in such form and supported by such data to substantiate its accuracy as the Architect/Engineer or Owner may require. A line item shall be included in the schedule of values for "Close Out" items. Close Out is defined as all approved as-built drawings, operations and maintenance manuals, materials, and items required to be turned over to the Owner, instructional training sessions etc. This line item shall be listed as equal to one percent (1%) of the Total Contract amount but not less than \$5,000.00. Unless objected to by the Architect/Engineer or Owner, this schedule shall be used as a basis for reviewing the Contractor's Application for Payment.

10.2.2. The Schedule of Values shall furnish the most detailed breakdown feasible for analysis. It shall state the names of all contractors, Subcontractors and material suppliers, and the amounts to become due to each, as well as the value of Work to be completed by the Contractor's forces. The information as to labor and materials shall further be broken down to floor-by-floor, system-by-system and component-by-component items wherever applicable. The Contractor's overhead and profit shall each be carried as separate items. The total for all items shall aggregate the Contract Sum.

10.3 APPLICATION FOR PAYMENT

10.3.1 At least fifteen (15) Days before the date established for each progress payment, the Contractor shall submit to the Owner and the Architect/Engineer on the standard AIA forms G702 and G703 or that designated by the Owner, an itemized Application for Payment for Work completed in accordance with the Schedule of Values. Such application shall be notarized and supported by such data substantiating the Contractor's right to payment as the Owner or Architect/Engineer may require, such as copies of requisitions from Subcontractors and material suppliers, and reflecting retainage, if provided for elsewhere in the Contract Documents. Such applications may not include requests for payment of amounts the Contractor does not intend to pay to a Subcontractor or materials supplier because of a dispute or other reason. Each application for payment shall be accompanied by the Contractor's Affidavit and an invoice on company stationery. The Contractor shall submit with all applications for payment, a notarized copy of payroll records for all personnel involved with this Project and partial or final waivers of lien from the Contractor, Subcontractors and material-men. The Contractor shall send applications for payment to Robert H. Gruffi, P.E., Director, Facilities Management, Dr. Robert L. Yeager Health Center, Sanatorium Road, Pomona, NY 10970.

10.3.2 Unless otherwise provided in the Contract Documents, payments shall be made for materials and equipment delivered and suitably stored at the Site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment suitably stored off the Site at a location agreed upon in writing. Payment for materials and equipment stored on or off the Site shall be conditioned upon compliance by the Contractor with procedures satisfactory to the Owner to establish the Owner's title to such materials and equipment, or otherwise protect the Owner's interest, and shall include applicable insurance, storage, and transportation to the Site for such materials and equipment stored off the Site. Such warranty shall also include persons or organizations to whom fringe benefits of any description are payable.

10.3.3 The Contractor warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Contractor further warrants that upon submittal of an Application for Payment, all Work for which Certificates for Payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information and belief, be free and clear of liens, claims, security interests or encumbrances in favor of the Contractor, Subcontractors, material suppliers, or other persons or entities making a claim because of having provided labor, materials and equipment relating to the Work.

10.3.4 A sum equal to five percent (5%) shall be deducted from each payment to the Contractor and be held by the County of Rockland. Payment will be made in full, less retainage, upon completion and acceptance of the Work by the Owner.

10.3.5 When the Work or significant portions thereof is substantially completed, the Contractor shall submit to the Owner a requisition to pay of the remaining amount of the Contract balance. Upon receipt of such requisition the owner shall approve and promptly pay the remaining items to be completed and an amount necessary to satisfy any claims, liens or judgments against the Contractor which have not been suitably discharged. As the remaining items of Work are satisfactorily completed or corrected, the Owner shall promptly pay, upon receipt of a requisition, for these items less an amount necessary to satisfy any claims, liens or judgments against the contractor, which have not been suitably discharged.

10.4 CERTIFICATES FOR PAYMENT

10.4.1 After consultation with the Owner, the Architect/Engineer will, within ten (10) Days after receipt of the Contractor's Application for Payment, either issue to the Owner a Certificate for Payment, with a copy to the Contractor, for such amount as the Architect/Engineer determines is properly due, or notify the Contractor and Owner, in writing, of the Architect's/Engineer's reasons for withholding certification in whole or in part as provided below.

10.4.2 The issuance of a Certificate for Payment will constitute a representation by the Architect/Engineer to the Owner, based on the Architect's/Engineer's observation at the Site and the data comprising the Application for Payment, that the Work has progressed to the point indicated, and that to the best of the Architect's/Engineer's knowledge, information and belief, quality of the Work is in accordance with the Contract Documents. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon substantial completion, results of subsequent tests and inspections, minor deviations from the Contract Documents, correctable before completion, and specific deviations from the Contract Documents qualifications expressed by the Architect/Engineer. The issuance of a Certificate for Payment will further represent that the Contractor is entitled to payment in the amount certified. However, the issuance of a Certificate for Payment will not be a representation that the Architect/Engineer has (1) made exhaustive or continuous on-Site inspections to check the quality or quantity of the Work, (2) reviewed construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and materials suppliers and other data requested by the Owner to substantiate the Contractor's right to payment, or (4) made examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

10.5 DECISIONS TO WITHHOLD CERTIFICATION

10.5.1 The Construction Manager or Architect/Engineer may decide not to certify payment, and may withhold a Certificate of Payment in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Construction Manager or Architect's/Engineer's opinion the representations to the Owner required above cannot be made. If the Construction Manager or Architect/Engineer cannot certify payment in the amount of the Application, the Construction Manager or Architect/Engineer will notify the Contractor and Owner as provided herein. If the Contractor, Construction Manager or Architect/Engineer cannot agree on a revised amount, the Construction Manager or Architect/Engineer will promptly issue a Certificate for Payment for the amount for which the Construction Manager or Architect/Engineer is can make such representations to the Owner. The Construction Manager or Architect/Engineer may also decide not to certify payment or, because of subsequently discovered evidence or subsequent observations, may nullify the whole or a part of

a certificate for payment previously issued, to such extent as may be necessary in the Construction Manager or Architect's/Engineer's opinion to protect the Owner from loss because of:

10.5.1.1 defective or incomplete Work not remedied;

10.5.1.2 third party claims filed or reasonable evidence indicating probable filing of such claims;

10.5.1.3 failure of the Contractor to make payments properly to Subcontractors for labor, materials or equipment;

10.5.1.4 reasonable evidence that the Work cannot be completed for the unpaid balance of the Contract Sum;

10.5.1.5 damage to the Owner or another contractor;

10.5.1.6 reasonable evidence that the Work will not be completed within the Contract time, and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay; or

10.5.1.7 the Contractor's persistent failure to carry out the Work in accordance with the Contract Documents.

10.5.2 When the above reasons for withholding certification are removed, certification will be made for amounts previously withheld.

10.6 PROGRESS PAYMENTS

10.6.1 After the Architect/Engineer has issued a Certificate for Payment, the Owner shall make payments in the manner and within the time provided in the Contract Documents and notify the Architect/Engineer. The Owner has the right to make payment to the Contractor by joint check.

10.6.2 Within fifteen (15) Days of the receipt of any payment from the Owner, the Contractor shall pay each of its Subcontractors and materialmen with proceeds from the payment representing the value of the Work performed and materials furnished by the subcontractor or materialmen and reflecting the percentage of the Subcontractor's Work completed or the materialmen's material supplied in the requisition approved by the Owner and based upon the actual value of the Subcontractor purchase order less an amount necessary to satisfy claims, liens or judgments against the Subcontractor or materialmen which have not been suitably discharged and less any retained amount as hereafter described. The Contractor shall retain not more than five percent (5%) of each payment to the Subcontractor and materialmen except that the Contractor may retain an excess of five percent (5%) but not more than ten percent (10%) of each payment to the Subcontractor provided that before entering into a subcontract with the Contractor, the Subcontractor is unable or unwilling to provide a performance bond and a labor and material bond both in the total amount of the Subcontractor at the request of the Contractor.

10.6.3 The Architect/Engineer or the Owner will, upon request, furnish to a Subcontractor, if practicable, information regarding percentages of completion or amounts applied for by the Contractor and action taken thereon by the Architect/Engineer and Owner on account of portions of the Work done by such Subcontractor.

10.6.4 Neither the Owner nor Architect/Engineer shall have an obligation to pay or to see to the payment of money to a Subcontractor except as may otherwise be required by law.

10.6.5 Payment to material suppliers shall be treated in a manner similar to that provided herein.

10.6.6 A certificate for payment, a progress payment, or partial or entire use or occupancy of the project by the Owner shall not constitute acceptance of Work.

10.7 FAILURE OF PAYMENT

10.7.1 If the Architect/Engineer does not issue a certificate of payment, through no fault of the Contractor, within ten (10) Days after receipt of the Contractor's application for payment, if the Owner does not pay the Contractor within forty-five (45) Days, excluding legal holidays, after the date established in the Contract Documents, the amount certified by the Architect/Engineer, then the Contractor may, upon seven (7) Days written notice to the Owner and Architect/Engineer, stop the Work until payment of the amount owing has been received. The Contract time shall be extended appropriately, and the Contract Sum shall be increased by the amount of the Contractor's reasonable costs of shutdown, delay and startup. The Contractor's right to stop the Work is not applicable in the event that the Architect/Engineer or Owner withholds the certificate for payment or payment by virtue of the Contractor's failure to fully perform under this Contract.

10.8 SUBSTANTIAL COMPLETION

10.8.1 Substantial completion is the stage in the progress of the Work when the Work or designated portion thereof is complete in accordance with the Contract Documents, a certificate of occupancy has been issued, all utility connections are functioning properly, and the Owner can use and occupy the Project for its intended purpose.

10.8.2 When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall prepare and submit to the Architect/Engineer, a request for certification of substantial completion along with a comprehensive list of items to be completed or corrected. The Contractor shall proceed promptly to complete and correct items on the list. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents. Upon receipt of the Contractor's request, the Architect/Engineer will inspect whether the Work or designated portion thereof is substantially complete. If the Architect's/Engineer's inspection discloses any item, whether or not included on the Contractor's list, which is not in accordance with the requirements of the Contract Documents, the Contractor shall, before issuance of the certificate of substantial completion, complete or correct such item upon notification by the Architect/Engineer. The Contractor shall then submit a request for another inspection by the Architect/Engineer to determine substantial completion. When the Work or designated portion thereof is substantially complete, the Architect/Engineer will prepare a certificate of substantial completion which shall establish the date of substantial completion, shall establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance, and shall fix the time within which the Contractor shall furnish all items on the list accompanying the certificate. Warranties required by the Contract Documents shall commence on the date of substantial completion of the Work or designated portion thereof, unless otherwise provided in the certificate of substantial completion and shall be provided to the Architect/Engineer and Owner, in the appropriate form, before final payment is made. The certificate of substantial completion shall be submitted to the Owner and Contractor for their written acceptance of their responsibilities in such a certificate.

10.8.3 Upon substantial completion of the Work or designated portion thereof, and application by the Contractor and certification by the Architect/Engineer, the Owner shall make payment, reflecting adjustment in retainage, if any, for such Work or portion thereof as provided in the Contract Documents.

10.9 PARTIAL OCCUPANCY OR USE

10.9.1 The Owner may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer and authorized by public authorities having jurisdiction over the Work. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Owner and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage, if any, security maintenance, heat, utilities, damage to the Work and insurance, and have agreed, in writing, concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially

complete, the Contractor shall prepare and submit a request to the Architect/Engineer, as provided above. Consent of the Contractor to partial occupancy or use shall not be reasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Owner and Contractor or, if no agreement is reached, by decision of the Architect/Engineer.

10.9.2 Immediately before such partial occupancy or use, the Owner, Contractor and Architect/Engineer shall jointly inspect the area to be occupied or portion of the Work to be used to determine and record the condition of the Work.

10.9.3 Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute acceptance of Work.

10.10 FINAL COMPLETION AND FINAL PAYMENT

10.10.1 **FINAL COMPLETION:** Upon receipt of written notice that the Work is ready for final inspection and acceptance, and upon receipt of a final application for payment, the Architect/Engineer will promptly make such inspection and, when the Architect/Engineer finds the Work acceptable under the Contract Documents and the Contract fully performed, the Architect/Engineer will promptly issue a final certificate for payment, stating that based on the Architect's/Engineer's observations and inspections, the Work has been completed in accordance with terms and conditions of the Contract Documents, and that the entire balance found to be due to the Contractor and noted in the said final certificate is due and payable. Neither final payment nor any remaining retained percentage shall become due until the Contractor submits to the Architect/Engineer:

10.10.1.1 A certificate evincing that insurance required by the Contract Documents to remain in force after the final payment is currently in effect, and will not be cancelled or allowed to expire until at least thirty (30) Days prior written notice has been given to the Owner.

10.10.1.2 A written statement that the Contractor knows of no substantial reason that the insurance will not be renewable to cover the period required by the Contract Documents.

10.10.1.3 Other data establishing payment or satisfaction of obligations, such as receipts, releases and waivers of liens, claims, security interests or encumbrances arising out of the Contract, to the extent and in such form as may be designated by the Owner. If a Subcontractor refuses to furnish a release or waiver required by the Owner, the Contractor may furnish a bond satisfactory to the Owner to indemnify the Owner against such lien. If such lien remains unsatisfied after payments are made, the Contractor shall be responsible to the Owner for all money that the Owner may be compelled to pay in discharging such lien, including all costs and reasonable attorneys' fees and the Owner may withhold from final payment or retainage, an amount sufficient for such purpose.

10.10.1.4 All documents required in accordance with the applicable specifications and the requirements of the Architect/Engineer, including warranties, operating manuals, final material manuals, digital format.

10.10.1.5 The contractor shall turn over to the A/E, all construction information, including AutoCAD files, surveys, measurements, construction changes to produce As-Built drawings by the Architect/Engineer.

10.10.1.6 Completion of all training obligations in accordance with the specifications.

- 10.10.1.7.2 Contractor's Affidavit of Payment of Debts and Claims. (AIA Form G706)

- 10.10.1.7.5 General Release (Blumberg Form B-110 or B-111); and
- 10.10.1.7.6 Contractor's Guarantee.

10.10.2 If, after substantial completion of the Work, final completion thereof is materially delayed through no fault of the Contractor or by the issuance of change orders affecting final completion, and the Architect/Engineer so confirms, the Owner may, upon application by the Contractor and certification by the Architect/Engineer, and without terminating the Contract, make payment of the balance due for that portion of the Work fully completed and accepted. If the remaining balance for Work not fully completed or corrected is less than the retainage stipulated in the Contract Documents. If bonds have been furnished, the written consent of surety to payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by the Contractor to the Architect/Engineer before certification of such payment. Such payment shall be made under terms and conditions governing final payment, except it, shall not constitute a waiver of claims.

10.10.3 Acceptance of final payment by the Contractor, a Subcontractor or material supplier shall constitute a waiver of all claims by that payee, except those previously made in writing and identified by that payee as unsettled at the time of final application for payment.

10.11 MONEY RETAINED AGAINST CLAIMS

10.11.1 If any claim shall be made by any person, firm or corporation against the Owner or against the Contractor and the Owner: (1) for an alleged loss, damage or injury of the kind referred to herein which, may not be covered by the contingent liability, public liability or property damage insurance policy or, which, together with previously filed claims, is in excess of the amount payable under such policies; or (2) for an infringement of patents or use of patented articles, tools, etc., as referred herein, or (3) for damage claimed to have been caused directly or indirectly by the failure of the Contractor to perform the Work in strict accordance with this Contract: the amount of such claim, or so much thereof as the Owner may deem necessary, may be withheld by the Owner, as security against such claim, from any money due hereunder, until such time as the commencement of an action thereon would be barred by law or until final adjudication of such action by a Court of competent jurisdiction. The Owner, in its discretion, may permit the Contractor to substitute other satisfactory security instead of the money withheld.

10.11.2 If no action is commenced upon such claim within the time-limited thereof by law, the Owner shall, upon written demand by the Contractor, pay the amount so withheld without interest.

10.11.3 If an action upon such claim is timely commenced and the liability of the Owner, or the Contractor, or both, shall have been established therein by a final judgment of a court competent jurisdiction, or if such claim shall have been admitted by the Contractor to be valid, the Owner shall pay such judgment or admitted claim out of the moneys retained by it under the provisions hereof, and pay the balance, if any, without interest, to the Contractor.

The Owner shall hold the moneys so retained until the lien thereon created by the said act and the filing of the said notices shall be discharged in accordance with the law.

10.13 **NO ESTOPPEL**

10.13.1 Neither the Owner nor any department, officer, agent or employee thereof, shall be bound, precluded or estopped by any determination, decision, approval, order, letter, payment or certificate made or given under or in connection with this Contract by the Owner, the Owner's Representative, or any other officer, agent or employee of the Owner, either before or after the final completion and acceptance of the Work and payment therefor: (1) from showing the true and correct classification, amount, quality or character of the Work actually done; or that any such determination, decision, order, letter, payment or certificate was untrue, incorrect or improperly made in any particular, or that the Work or any part thereof does not in fact conform to the requirements of this Contract; and (2) from demanding and recovering from the Contractor any overpayment made to it, or such damages as the County may sustain by reason of the Contractor's failure to perform each and every part of this Contract.

11.2 PROPERTY AND OTHER INSURANCE

11.2.1 Unless otherwise provided, the Owner shall purchase and maintain, in a company or companies lawfully authorized to do business in the jurisdiction in which the Project is located, property insurance in the amount of the initial Contract Sum, as well as subsequent modifications thereto for the entire Work at the Site on a replacement cost basis without voluntary deductibles. Such property insurance shall be maintained, unless otherwise provided in the Contract Documents or otherwise agreed in writing by all persons and entities who are beneficiaries of such insurance, until final payment has been made or until no person or entity other than the Owner has an insurable interest in the property, whichever is earlier. This insurance shall include the interests of the Owner, the Architect/Engineer, the Contractor, Subcontractors, and sub-Subcontractors in the Work.

11.2.2 Property insurance shall be on an all-risk policy form and shall insure against the perils of fire and extended coverage and physical loss or damage including, without duplication of coverage, theft, vandalism, malicious mischief, collapse, false Work, temporary buildings and debris removal, including demolition occasioned by enforcement of any applicable legal requirements, and shall cover reasonable compensation for Architect's/Engineer's services and expenses required as a result of such insured loss. Coverage for other perils shall not be required unless otherwise provided in the Contract Documents.

11.2.3 If the Owner does not intend to purchase such property insurance required by the Contract and with all of the coverages in the amount described above, the Owner shall inform the Contractor, in writing, before the commencement of the Work. The Contractor may then purchase insurance, which will protect the interests of the Contractor, Subcontractors and sub-Subcontractors in the Work, and by appropriate change order the cost thereof shall be charged to the Owner. If the Contractor is damaged by the failure or neglect of the Owner to purchase or maintain insurance as described above, without notifying the Contractor, the Owner shall be responsible for all reasonable costs properly attributable to the Owner.

11.2.4 If the property insurance requires minimum deductibles and such deductibles are identified in the Contract Documents, the Contractor shall pay costs not covered because of such deductibles. If the Owner or insurer increases the required minimum deductibles above the identified amounts in this Contract, or if the Owner elects to purchase this insurance with voluntary deductible amounts, the Owner shall be responsible for payment of the additional costs not covered because of such increased or voluntary deductibles. If deductibles are not identified in the Contract Documents, the Owner shall pay costs not covered because of deductibles.

11.2.5 Unless otherwise provided in the Contract Documents, this property insurance shall cover portions of the Work stored off the Site after written approval of the Owner at the value established in the approval, and portions of the Work in transit.

11.2.6 The property insurance specified may, in certain instances, include other parties as named insured, as the interests of such parties may appear. Loss, if any, is to be made adjustable with and payable to the Owner on behalf and for the named insured as the interests of such insured may appear. At the Owner's sole discretion, the Owner shall have the power to adjust and settle with the insurer any loss or claim under such insurance. The above is not intended to be a complete, full, or accurate description of the coverage provided by the insurance policies, copies of which are on file with the Owner. This paragraph is not intended to create or give any rights to the Contractor or Subcontractor other than those available to such contractors under the terms of said policies. The Owner assumes no obligation to obtain insurance other than that evidenced by said policies, and the Owner makes no representation or guarantee as to the effect and coverage under said policies. The Contractor and Subcontractor shall not violate or permit to be violated any term or condition of such policies and shall, at all times, satisfy the requirements of the Owner and the insurance companies issuing the policies mentioned above.

11.2.7 **Boiler and Machinery Insurance:** The Owner shall purchase and maintain boiler and machinery insurance required by the Contract Documents or by law, which shall specifically cover such insured objects during installation and until final acceptance by the Owner; this insurance shall include interests of the Owner, Contractor, Subcontractors and sub-Subcontractors in the Work, and the Owner and Contractor shall be named insured.

11.2.8 **Loss of Use Insurance:** The Owner, at the Owner's option, may purchase and maintain such insurance as will insure the Owner against loss of use of the Owner's property due to fire or other hazards, however caused. The Owner waives all rights of action against the Contractor for loss of use of the Owner's property, other than as a result of the Contractor's negligence.

11.2.9 If the Contractor requests, in writing, that insurance for risks other than those described herein, or for other special hazards be included in the property insurance policy, the Owner shall, if possible, include such insurance, and the cost thereof shall be charged to the Contractor by appropriate change order.

11.2.10 **Waivers of Subrogation:** The Owner and Contractor waive all rights against (1) each other and any of their Subcontractors, sub-Subcontractors, agents and employees, each of the other, and (2) Architect's/Engineer's consultants, separate contractors, if any, and any of their Subcontractors, sub-Subcontractors, agents and employees, for damages caused by fire or other perils to the extent covered by property insurance obtained in accordance with hereto or other property insurance applicable to the Work, except such rights as they have to proceeds of such insurance held by the Owner as fiduciary. The Owner, or Contractor, as appropriate, shall require of the Architect/Engineer, Architect's/Engineer's consultants, separate contractors, if any, and the Subcontractors, sub-Subcontractors, agents and employees of any of them, by appropriate agreements, written where legally required for validity, similar waivers, each in favor of other parties enumerated herein. The policies shall provide such waivers of subrogation by endorsement or otherwise. A waiver of subrogation shall be effective as to a person or entity even though that person or entity would otherwise have a duty of indemnification, contractual or otherwise, did not pay the insurance premium directly or indirectly, and whether or not the person or entity had an insurable interest in the property damaged.

11.2.11 A loss insured under Owner's property insurance shall be adjusted and settled with the appropriate insured by the Owner as fiduciary, and made payable to the Owner as fiduciary for the insured, as their interests may appear, subject to requirements of any applicable mortgage clause and of this section. The Contractor shall pay Subcontractors their just shares of insurance proceeds received by the Contractor, and by appropriate agreements, written where legally required for validity, shall require Subcontractors to make payments to their sub-Subcontractors similarly.

11.3 PERFORMANCE AND PAYMENT BONDS

11.3.1 The Contractor shall furnish to the Owner and keep in force during the term of the Contract performance and labor and material payment bonds guaranteeing that the Contractor will perform its obligations under the Contract and pay for all labor and materials furnished for the Work. Such bonds shall be issued in a form and by a surety reasonably acceptable to the Owner, shall be submitted to the Owner for approval as to form, shall name the Owner as obligee and shall be in the amount equal to at least one hundred percent (100%) of the Contract Sum (as the same may be adjusted from time to time, in accordance with the Contract). The Contractor shall deliver the executed, approved bonds to the Owner simultaneously with the execution of this Contract. Payee to be: Commissioner of Finance, County of Rockland, 50 Sanatorium Road, Building A, 8th Floor, Pomona, New York 10970.

11.3.2 Upon the request of any person or entity appearing to be a potential beneficiary of bonds covering payment of obligations arising under the contract, the Contractor shall promptly furnish a copy of the bonds or shall permit a copy to be made.

11.3.3 The Owner may require the Contractor, to the extent available, to obtain a bond from an appropriate surety for the Contractor's maintenance obligation under the Contract Documents.

12.1 SAFETY PRECAUTIONS AND PROGRAMS

12.1.1 The Contractor shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the performance of the Contract, and shall conform to all applicable rules pertaining to the Work, including the New York State Safety Requirements, County of Rockland Safety Manual and OSHA Regulations. Neither the Owner nor the Architect/Engineer shall be responsible for providing a safe working place for the Contractor, the Subcontractors or their employees, or any individual responsible to them for the Work.

12.1.2 In the event the Contractor encounters on the Site material reasonably believed to be asbestos or polychlorinated biphenyl (PCB) or other hazardous materials or conditions which have not been rendered harmless, the Contractor shall immediately stop Work in the area affected and report the condition to the Owner and Architect/Engineer in writing. The Work in the affected area shall not after that be resumed except by written agreement of the Owner and Contractor if, in fact, the material is asbestos or polychlorinated biphenyl (PCB), or when it has been rendered harmless, by written agreement of the Owner and Contractor, or in accordance with final determination by a qualified consultant retained by the Architect/Engineer at the Owner's expense, or a final determination by a competent governmental authority.

12.1.3 The Contractor shall not be required, in accordance with the Contract Documents, to perform without consent, any Work relating to asbestos, lead or lead based paint or polychlorinated biphenyl (PCB) or other hazardous materials or conditions, unless the presence of such materials on the project results from the Work or operations of the Contractor, its Subcontractors, sub-Subcontractors or materialman.

12.2 SAFETY OF PERSONS AND PROPERTY

12.2.1 The Contractor shall take reasonable precautions for the safety of, and shall provide reasonable protection to prevent damage, injury or loss to:

12.2.1.1 employees on the Work and other persons who may be affected thereby;

12.2.1.2 the Work and materials and equipment to be incorporated therein, whether in the storage on or off the Site, under care, custody or control of the Contractor or the Contractor's Subcontractors or sub-Subcontractors; and

12.2.1.3 other property at the Site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designed for removal, relocation or replacement in the course of construction.

12.2.2 The Contractor shall give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on the safety of persons or property or their protection from damage, injury or loss. 12.2.3 The Contractor shall erect and maintain reasonable safeguards for safety and protection as required by existing conditions and performances of the Contract, including posting danger signs and other warnings against hazards, promulgating safety regulations, and notifying owners and users of adjacent sites and utilities.

12.2.5 The Contractor shall promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property caused in whole or in part by the Contractor, a Subcontractor, or a sub-Subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible, except damage or loss attributable to acts or omissions of the Owner or Architect/Engineer or anyone directly or indirectly employed by either of them, or by anyone for whose acts either of them may be liable and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations elsewhere hereunder.

12.2.6 The Contractor shall designate a responsible member of the Contractor's organization at the Site, whose duty shall be to prevent accidents. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor, in writing, to the Owner and Architect/Engineer.

12.2.7 The Contractor shall not load or permit any part of the construction or Site to be loaded to endanger its safety.

Any damage to Municipal or County property, roads by trucks or construction equipment shall be repaired immediately by the Contractor or Subcontractor responsible for the damage. It is each Contractor's responsibility to comply or secure compliance with this requirement. If any Contractor or Subcontractor fails to rectify site damage or lacks the facility to do so, the County will direct the Contractor to perform such Work as required and back-charge the Contractor or Subcontractor responsible for same.

12.2.9 If shown on the drawings, the locations of utility structures and facilities are approximate only, and the accuracy and completeness are not guaranteed. The Contractor shall verify all facts regarding the location and nature of all utilities at its expense. The Contractor shall permit the owners of the utilities, or their agents, access to the site of the Work at all times to reset, relocate and protect their facilities, and it shall cooperate with them in performing this Work. This written notice of intention shall be served personally or by registered or certified mail, with a return receipt requested, to the proper company representative, and shall contain the name of the person responsible for the excavation, the date, place and type of excavation to be conducted. A copy of such notice shall promptly be delivered to the Owner.

12.2.10.2 The Contractor is required to participate in the Underground Facilities Protection Organization ("UFPO"). The Contractor must call 1-800-962-7962 at least two (2) but not more than ten (10) Days before excavation and shall provide the Owner with the time and date of the call and the case number assigned. Participation in UFPO does not relieve the Contractor from its responsibility to locate and protect all underground facilities.

The notice shall provide sufficient detail to enable the other party to investigate the matter. The Contractor shall adhere to any requirements imposed by the County of Rockland during any construction activity.

The obligation to deliver finished Work in strict accordance with this Contract before final acceptance shall be absolute and shall not be affected by the Owner's approval of or failure to prohibit means and methods of construction used by the Contractor.

ARTICLE 13 - TERMINATION OR SUSPENSION OF THE WORK OR THE CONTRACT

13.1 OWNER'S RIGHT TO STOP THE WORK

13.1.1 If the Contractor defaults, neglects or fails to correct or carry out Work in accordance with the Contract Documents; the Owner, by three (3) Days written notice, may (1) order the Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, the right of the Owner to stop the Work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity, or (2) immediately correct such deficiencies.

13.1.2 In either such case, an appropriate change order shall be issued deducting from payments then or after that due to the Contractor, the cost of such stoppage or of correcting such deficiencies, including compensation for the Architect's/Engineer's additional services and expenses made necessary by such default, neglect or failure, including, without limitation, the Owner's reasonable attorneys' fees. 13.4.2.2 accept assignment of the Contractor's subcontracts;

13.4.2.3 finish the Work by whatever reasonable method the Owner may deem expedient.

13.4.4 Upon receipt of such notice the Contractor shall immediately discontinue all further operations under this Contract and shall immediately quit the Site, leaving untouched all plant, materials, equipment, tools and supplies then on the Site.

13.4.5 After declaring the Contractor in default, the Owner may have the Work completed by such means and in such manner, by Contract with or without public letting, or otherwise, as it may deem advisable, utilizing for such purpose such of the Contractor's plant, materials, equipment, tools and supplies remaining on the Site, and also such Subcontractors as it may deem advisable.

ARTICLE 14 – CLAIMS AND DISPUTES**14.1 DEFINITION:**

A claim is a demand or assertion by one of the parties seeking adjustment or interpretation of the Contract terms, payment of money, an extension of time, or other relief concerning the terms of the Contract. The term "claim" also includes other disputes and matters in question between the Owner and Contractor arising out of or relating to the Contract. Claims must be made by written notice. The responsibility to substantiate claims shall rest with the party making a claim.

14.1.1 DECISION OF ARCHITECT/ENGINEER: Claims, including those alleging an error or omission by the Architect/Engineer, shall be referred initially to the Architect/Engineer for action. A decision by the Architect/Engineer shall be required as a condition precedent to litigation of a claim between the Contractor and Owner as to all such matters arising before the date final payment is due, regardless of (i) whether such matters relate to execution and progress of the Work or (ii) the extent to which the Work has been completed. The decision by the Architect/Engineer in response to a claim shall not be a condition precedent to litigation in the event (i) the position of Architect/Engineer is vacant, (ii) the Architect/Engineer has failed to render a decision within agreed time limits, (iii) the Architect/Engineer has failed to take action required within sixty (60) Days after the claim is made, (iv) ninety (90) Days have passed after the claim has been referred to the Architect/Engineer, (v) the claim relates to a mechanic's lien, or (vi) the claim relates to the services performed by the Architect/Engineer.

14.1.2 TIME LIMITS ON CLAIMS: Claims by either party must be made within five (5) Days after the occurrence of the event giving rise to such claim, or within five (5) Days after the claimant first recognizes the condition giving rise to the claim, whichever is later. If not so made on time, such claims shall be deemed waived. The time limits set forth herein are of the essence and are to be strictly construed.

14.1.3 CONTINUING CONTRACT PERFORMANCE: Pending final resolution of a claim, unless otherwise agreed in writing, the Contractor shall proceed diligently with performance of the Work, and the Owner shall continue to make payments in accordance with the Contract Documents.

14.1.4 WAIVER OF CLAIMS: FINAL PAYMENT: The making of final payment shall not constitute a waiver of claims by the Owner.

14.1.5 CLAIMS FOR CONCEALED OR UNKNOWN CONDITIONS: Contractor represents that it has had sufficient time to examine the site of the Work to determine the character of the subsurface material and conditions to be encountered; that it has based its Bid upon the sub-site information furnished by the Owner and its examination and that it will make no claim for subsurface conditions which can reasonably be inferred from the Owner's information or its examination. If the Contractor encounters subsurface or other latent physical conditions at the Site which differ substantially from those shown, described, or indicated in such information provided by the Owner or from any information which is a public record and which subsurface or other latent physical condition could not have been reasonably anticipated from that information or the Contractor's inspection and examination of the Site, the Contractor shall give immediate written notice to the Owner before any such condition is disturbed. The Owner shall promptly investigate and determine if the conditions are substantially different from those which should have been reasonably anticipated and make such changes in the drawings and specifications as may be required. If necessary, the Contract Sum and completion date shall be adjusted to reflect any increase or decrease in the cost of or time required for the performance of the Contract.

14.2 CLAIMS FOR ADDITIONAL TIME/NO DAMAGE FOR DELAY

14.2.1 If the Contractor wishes to make a claim for an increase in the Contract time, written notice as provided herein shall be given. The Contractor's claim shall include an estimate of cost and probable effect of delay on the progress of the Work. In the case of a continuing delay, only one claim is necessary. Notwithstanding certain exceptions, the Contractor shall make no claim for monetary or other damages against the Owner or its agents for the delay in the performance of this Contract for any reason and agrees that any such claim shall be fully compensated for by an extension of time to complete the performance of the Work provided for in the Contract Documents.

14.2.2 If adverse weather conditions are the basis for a claim for additional time, such claim shall be documented by data substantiating that weather conditions were severely abnormal for the time and could not have been anticipated and that those weather conditions had such an adverse effect on the scheduled construction that could not have been planned for by the Contractor.

14.3 RESOLUTION OF CLAIMS AND DISPUTES

14.3.1 The Architect/Engineer will review claims and take one or more of the following preliminary actions within fourteen (14) Days of receipt of a claim: (i) request additional supporting data from the claimant, (ii) submit a schedule to the parties indicating when the Architect/Engineer expects to take action, (iii) reject the claim in whole or in part, stating the reasons for rejection, (iv) recommend approval of the claim by the other party or (v) suggest a compromise. The Architect/Engineer may also, but is not obligated to, notify the surety, if any, of the nature and amount of the claim.

14.3.2 If a claim has been resolved, the Architect/Engineer will prepare or obtain appropriate documentation.

14.3.3 If a claim has not been resolved, the party making a claim shall, within fourteen (14) Days after the Architect's/Engineer's preliminary response, take one or more of the following actions: (i) submit additional supporting data requested by the Architect/Engineer, (ii) modify the initial claim, or (iii) notify the Architect/Engineer that the initial claim stands.

14.3.4 If a claim has not yet been resolved after consideration of the foregoing and of further evidence presented by the parties or requested by the Architect/Engineer, the Architect/Engineer will notify the parties in writing that the Architect's decision shall be final and binding on the parties. Upon expiration of such time period, the Architect/Engineer will render to the parties the Architect's/Engineer's written decision relative to the Claim, including any change in the Contract Sum or Contract Time or both. If there is a surety and there appears to be a possibility of the Contractor's default, the Architect/Engineer may, but is not obligated to, notify the surety and request the surety's assistance in resolving the controversy.

14.4 NO CLAIM AGAINST OFFICERS, AGENTS OR EMPLOYEES

14.4.1 The Contractor hereby waives all claims against any officer, agent or employee of the Owner for, or on account of, anything done or omitted to be done in connection with this Contract.

14.4.2 The Contractor shall require each Subcontractor or consultant to agree in the contract with such Subcontractor or consultant not to make any claim against the Owner's officers, agents, or employees, because of such contract, or any acts or omissions of the Contractor.

14.4.3 The Contractor hereby agrees to indemnify the officers, agents or employees of the Owner, against any expenses, legal fees, or the like incurred by them or on their behalf as a result of any claim asserted against them in violation of this Section.
