Measurement Guide

Wall Clearance:

This is commonly known as bar offset. All AJW bars have 1 1/2" clearance between the mounting surface and inside of the bar with the exception of wall to floor bars. (Complies with Federal specification WW-p-541/8b)

Sizing Bars:

All stainless steel grab bars are measured centerline to centerline. Three sided bars (ex: Configuration-V) must have finished wall sizes supplied when pricing and ordering bars.

Flange Types

Exposed Flange

3" O.D. 11 gauge 4 satin finish stainless steel with three (3) mounting points (for 1/4" dia fasteners). Flange is TIG welded to bar for one-piece construction.

Concealed Snap Flange

3" O.D. deep drawn, 22 gauge stainless steel cover with a satin finish. A 12 gauge stainless steel mounting plate is welded to the bar with 3 (three) mounting points.

Concealed Set Screw Flange

3" O.D. deep drawn 11 gauge satin finish stainless steel. 12 gauge tennon plate. Flange is secured to plate by means of four (4) 1/4 - 20 stainless steel tamper resistant set screws.

Identification:

Grab Bars - UG20x, 42" long surfaced mount, stainless steel tubing, peened surface, concealed snap flange. Provide appropriate blocking. Coordinate with Handicap Accessibility guideline requirements. Acceptable substitutes: Bobrick, American Standard or approved equal..

SPECIFICATIONS & INSTALLATION

Tubing: Fabricated of #18 ga stainless steel with a #4 satin finish. Available in 1 1/4" outside diameter. All bends are formed by an automatic mandrel bending process. All bars maintain a constant 1 1/2" offset.

Finish: Standard finish is a #4 satin finish. For a non-slip finish (peened) add suffix X to model number. (Ex. UG20X-A)

Flange: Flanges are fabricated of 3" diameter, 1/2" drawn #11 ga stainless steel with #4 satin finish to match tubing. Flanges are heliarc welded to bar to form a one piece construction. Each flange is secured to concealed mounting plate with four (4) 1/4"-20 stainless steel tamper resistant set screws.

Strength: Bars with a 1 1/2" offset clearance will support loads in excess of 900lbs when properly installed. Bars with greater offsets will support loads up to 250lbs when properly installed.

Installation: Before installing grab bars, verify with all state and local codes for requirements on bar diameter and type finish. Recommended mounting heights for grab bars are 33" - 36" centerline above finished floor. All mounting of grab bars when possible should have in wall mounting back plates. Secure mounting plate to wall surface at specified location with proper anchors (snugly) until proper centerline dimension is achieved. Place bar over plates and secure with supplied set screws. (4 per flange).

Standard Lengths (Other sizes available upon request): 12", 16", 18", 24", 30", 32", 36", 42", 48", 50", 52", 54", 56"

Product Overview & Guides

Scott® provides a reliable balance of efficiency, performance, and value in state-of-the-art solutions. If you're responsible for a high-traffic restroom, you need a high capacity bathroom tissue dispenser. Scott® Coreless Jumbo Roll Toilet Paper Dispensers offer high capacity, easy maintenance systems that can help lower maintenance costs. Available in double-roll and single-roll configurations, these dispensers are designed to dispense 9.38" diameter x 3.8" wide coreless tissue rolls. Since the dispenser is suited to a jumbo roll with no core, it helps keep your washroom environmentally conscious. The easy-to-load system has no door, no key, and no core to throw away. Look for compatible coreless jumbo roll toilet paper from Kleenex® and Scott® Brands. After all, you have better things to do than worry about refilling toilet paper! This dispenser is backed by a lifetime warranty and is designed to save you time and money while reducing service disruptions and user complaints.

- 1 Scott® Essential™ Coreless Jumbo Roll Toilet Paper Dispenser/Case; White; with Stub Roll; 14.25" x 9.75" x 6.00"

Nexa™

Hand Hygiene Dispensing Technology for the Modern Hospital

EFFICIENT. SAFE. ELEGANTLY SIMPLE. SUSTAINABLE.

Nexa Classic Manual

FLEXIBLE OPTIONS HELP IMPROVE EFFICIENCY

- Large bottle size extends interval between change-outs
- Small bottle fits in Classic dispenser
- Smaller footprint of Compact dispenser fits tight spaces
- Evacuates product more fully, compared to a leading competitive dispensing system, especially for gels and lotions
- Adjustable dosing helps improve staff satisfaction and manage product use

ENHANCING SAFETY THROUGHOUT YOUR FACILITY

- Antimicrobial protection in the manual dispenser pushbar works continuously to inhibit the growth of bacteria, mold and mildew that can cause degradation
- Optional locking mechanism helps deter tampering
- Meets ADA compliance requirements
- 750 mL size reduces alcohol quantity to support fire code compliance

Nexa Compact Touch Free

SIMPLICITY SUPPORTS YOUR REPUTATION FOR EXCELLENT CARE

- Language-free, color-coded badges make product identification easy
- The same bottle fits manual and touch free dispensers for optimized inventory management
- Product level and expiration date are visible through dispenser window

SUSTAINABLE SOLUTIONS FOR YOUR HOSPITAL AND THE PLANET

- HDPE recyclable bottle
- Less packaging waste
- Assembled in the USA

☐ ☒ All dispensers come in black or white.

Sophisticated design and enhanced simplicity

DISPENSER OPTIONS FOR EVERY NEED

Two sizes, two dispensing options and two colors give you flexible choices to meet the hand hygiene needs of your facility.

SIZES

CLASSIC

- Holds 1250 mL soap or 1200 mL sanitizer
- Large bottle size extends interval between change-outs
- Holds large or small bottle

COMPACT

- Smaller footprint fits tight spaces to help you increase availability of dispensers
- Smaller sanitizer size means less alcohol per dispenser, so you can extend dispenser access within fire code limitations

DISPENSING OPTIONS

MANUAL

- Worry free and environmentally friendly
- No batteries to wear out, change or dispose of

TOUCH FREE

- Improved battery life
- Easy battery change—no tools required
- Thumb screws prevent screws from getting lost

WORKING TOGETHER TO PROMOTE BETTER HAND HYGIENE

- Complete installation management
- Onsite support to oversee your conversion
- Simple installation
- Comprehensive staff training

About the Automatic Sanitizer Dispenser

The Automatic Sanitizer Dispenser is a touch-less, battery-operated hand sanitizer dispenser that can be mounted on a wall (wall-mounting tools and drip tray included).

It has a 1000mL universal, refillable reservoir that works with most Liquid/Gel Hand Sanitizers. The station is ADA Compliant and can be operated with one hand, making it accessible to people with disabilities.

It includes an infrared sensor for fully-automatic non-touch operation. Drip tray catches extra sanitizer so floors remain clean. 1000mL Capacity refillable reservoir. Battery Type – C, 4 – 1.5V batteries required (batteries or 6V, 1A adapter cord NOT INCLUDED). Features lock to help prevent theft and vandalism as well as an On & Off button.

FAQ:

When does it ship? It ships 1-2 business day after you place your order.

Where does it ship from? It ships from Dallas, TX.

Can I use any sanitizer in this? The dispenser has a universal, refillable 1000mL reservoir that takes most liquid or gel sanitizer.

Does it take foam sanitizer? No, it does not.

Is it touch-less? Yes, there is an infrared sensor that automatically dispenses when your hand is underneath.

How does it dispense? Is it like a spray or like a drop? It drops, it does not spray.

How many dispenses will I get before I need to refill the reservoir? You will get roughly 1280 dispenses before needing to refill the reservoir.

Do I need to plug it in? The unit works with either FOUR (4) C Batteries (1.5V) or DC 6 Volt, 1 AMP (6V, 1A) adapter plug. Batteries or the cord are not included.

What kind of batteries does it take? It takes four (4) C Batteries (1.5 V). Batteries are not included.

Are batteries included? No, batteries are not included.

How many dispenses do I get before I need to change the batteries? 30,000 dispenses

Can I use this station outside? No, it is not waterproof

How much does the dispenser weigh? 3 lbs.

1/4

Identification:

Automatic Sanitizer Dispensing Unit, 1000mL. Owner provided and installed. Contractor to provide wall blocking. Coordinate with Handicap Accessibility guideline requirements. Manufacturer: Stand Up Stations or approved equal.

A03n
1 of 2

How do I get sanitizer refills from you? You can email info@standupstations.com or call [800-413-9490](tel:800-413-9490) to order more sanitizer solution from us.

What kind of sanitizer do you have? We have both liquid and gel sanitizer with the WHO-recommended formula (80% alcohol)

Do I have to buy refills from you? No, you can use any bulk liquid or gel sanitizer solution. Simply open the reservoir and pour in the solution from a gallon jug.

Does it have a warranty? We are not offering refunds or returns on our stands unless there is damage upon delivery, or there is a defect in materials or craftsmanship affecting the quality and functionality. See our limited warranty details [here](#).

Included with every dispenser order:

- Touch-less automatic dispenser with refillable reservoir that works with any bulk liquid or gel hand sanitizer product
- Drip tray
- Mounting tools for installation on wall

Add-Ons:

- 1 Gallon of gel or liquid hand sanitizer, WHO-recommended formula (80% alcohol)
- Water-absorbent mat

Product Overview & Guides

Scott® Pro™ Hard Roll Paper Towel Dispensers (for Blue Core Scott® Pro Roll towels) are designed to take hand hygiene to another level. The Scott® Pro™ Dispenser Systems have innovative internal dispensing that plug and play to customize it to meet your needs. Scott® Pro™ Hard Roll Towel Dispensers are available in various colors as well as in automatic and manual configurations. Automatic dispenser models are 99.99% jam free - guaranteed, so you can count on its reliable, touchless operation. Manual dispenser models offer the hygiene of touchless dispensing without the batteries. Both models offer quiet dispensing, hygienic and touch-free dispensing. Automatic and manual hard roll towel dispenser modules are also available. This system combines touchless technology with the bacteria-reducing benefits of drying with paper towels, supporting and promoting better hand and surface hygiene. This dispenser is backed by a lifetime warranty and is designed to save you time and money while reducing service disruptions and user complaints.

- 1 Scott® Pro™ Manual Hard Roll Towel Dispenser/Case; White; for Blue Core Scott® Pro™ Roll Towels; 12.66" x 16.44" x 9.18"

U711 Series Channel Frame Mirror

Revision 02/12

JOB #:

ITEM #:

QUANTITY:

MOUNTING

HANDING

TYPE

SIZE

OTHER

SPECIFICATIONS

Frame: Fabricated of #20 ga stainless steel, #4 satin finish. Roll formed 1/2" x 1/2" x 1/2" channel frame has mitered corners and secured with stainless steel rivet.

Mirror: 1/4" thick type 1 transparent flat type, class 1 - clear glass mirrors. Mirror is coated with silver and sealed with a uniform electrolytic copper plating, along with two coats of paint for added protection. Mirrors are guaranteed against silver spoilage for a period of 15 years. Mirrors conform to ASTM C1036 and ASTM C1503-R8.

Filler: Full size, 1/8" shock absorbing, water resistant, nonabrasive, polyethylene padding protects all concealed mirror surfaces.

Back: #20 ga pre-plated galvanized steel, with embossed horizontal lower mounting brackets. Embossed theft resistant pressure activated clip lock device, locks mirror in place to wall hangers.

Hangers: Fabricated of #20 ga pre-plated steel galvanized steel with mounting points.

Standard Sizes Available (W x H): 16"x24", 16"x20", 16"x30", 18"x24", 18"x30", 18"x36", 20"x60", 24"x30", 24"x36", 24"x42", 24"x48", 24"x60", 24"x72", 18"x60", 24"x60", 18"x72"

Mirrors conform to Federal Specifications DD-M-00411b & DD-g-541D.

Options:

-VC: Safety Glass(Vinyl clad)

-T: Tempered Glass

-LG: Laminated Glass

-PM: Plastic Acrylic

-8B: #8 Reflective s/s

-LX: Polycarbonate

Max size-8B mirrors: 72" x 47 1/2"

Mirrors are always ordered Width x Height

Fabricated to a tolerance of ± 1/8"

INSTALLATION

Coordinate installation with architect / contractor for specific mounting location and height for each mirror application. Making sure "I" bracket is level, transfer all mounting point locations to wall surface from drawing. Secure brackets with proper fasteners for each application. Slide mirror down over horizontal brackets until clip lock secures mirror in place. Mirror can only be removed by inserting tool through hole at bottom of frame depressing clip. This will allow mirror to slide up over brackets. Fillers are available if mirrors are mounted above and below tile line. (U004 Filler) filler material will match mirror frame to form a one piece construction.

To meet ADA Code, bottom edge of reflective surface can be no higher than 40" above finished floor. (4.19.6) Full length mirrors may be used for universal application when installed in correct locations.

Abrasive cleaners & chloric solutions should not be used on mirrors. Discoloring and /or scratching of frame and reflective surface may occur.

NOTES

Perfect Panel

Perfect Panel™ offers an innovative solution for changing privacy curtains. The design allows for replacement of soiled curtain panels without having to switch out the entire large curtain.

Designed with snaps, privacy curtains are removed, easily replaced, and within reach without the use of tools, ladders or step stools.

A sampling of our comprehensive line of quality products is featured here.

For access to our full product line, contact a dedicated healthcare consultant at 1.800.999.0400.

[View Healthcare Fabrics](#)

On the Right Track

On The Right Track® is an innovative technology that eliminates the hassle and time associated with replacing privacy curtains.

The On the Right Track® design allows curtains to be easily removed without the hassle of separating them from individual carriers.

A sampling of our comprehensive line of quality products is featured here.

For access to our full product line, contact a dedicated healthcare consultant at 1.800.999.0400.

[View Healthcare Fabrics](#)

Impact

Standard Textile exclusively provides Impact™ Technology –the only flame resistant fabric for decorative applications– engineered to provide stain resistance, splash protection, and antimicrobial properties.

Certified third party testing results validate Impact's efficacy against prevalent bacteria, including staphylococci, enterococci, and MRSA.

A sampling of our comprehensive line of quality products is featured here.

[View Healthcare Fabrics](#)

Hardware

As a leading manufacturer of track and hardware, Standard Textile offers complete privacy curtain solutions along with fabric and finished curtains.

Full track sets and/or individual track components are available.

A sampling of our comprehensive line of quality products is featured here.

For access to our full product line, contact a dedicated healthcare consultant at 1.800.999.0400.

Cubicle Curtains

Standard Textile fabricates cubicle curtains to exact styles and specifications.

Choose from a diverse collection of patterns and colorways, or work with our sales consultants to develop a cubicle curtain solution.

A sampling of our comprehensive line of quality products is featured here.

For access to our full product line, contact a dedicated healthcare consultant at 1.800.999.0400.

SMARTMOUNT[®] Pivoting Wall Mount

FOR 22" TO 43" DISPLAYS*

The SmartMount[®] Pivoting Wall Mount series offers the most versatile installation features and mounting options. Vertical adjustment ability allows for post installation leveling, making it easier than ever to find the perfect display position. With SP740P, extend the display up to 12.41" (315mm) or fully-retract it to just 3.03" (77mm) from the wall for an improved viewing angle. The display can now simply be installed by a single person with the Hook-and-Hang[™] system. One-Touch[™] tilt technology offers +15°/-5° vertical tilt movement for the ideal viewing angle. Integrated cable management protects, contains and conceals cables for a clean installation.

- Accommodates 100 x 100, 200 x 100, or 200 x 200mm VESA[®] mounting patterns
- Retracts to hold display just 3.03" (77mm) from the wall
- ±90° of pivot allows for perfect display positioning
- Easy leveling ±5° after display installation
- Quick and easy, Hook-and-Hang[™] one-person installation
- Landscape or portrait mounting options increases display versatility
- Includes all necessary wall and display attachment hardware
- Design is UL listed and tested to four times stated load capacity

Please visit peerless-av.com/en-us/patents for patent information.

*This display size range is simply a guideline for product selection. Displays larger than the screen size range may still be compatible as long as they fall within the VESA[®] pattern and max weight of the Peerless-AV[®] product.

Extend, turn, tilt, or retract the display for an improved viewing angle.

Integrated cable management keeps cords and cables out of the way.

Comes in color packaging with included installation hardware and easy to follow instructions.

FFTR1821T D/S/W/B TOP MOUNT REFRIGERATOR

18.0 CU. FT.

FRIGIDAIRE

* When installing refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 140° door swing, providing complete crisper access and removal. (Absolute 3" minimum clearance will ONLY allow for 90° door swing which will provide limited crisper access with restricted removal.)

INSTALLATION SPECIFICATIONS

- Product Shipping Weight (approx.) - 205 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (NFPA 70) and local codes & ordinances.
- Voltage Rating - 120V/60 Hz
- Connected Load (kW Rating) @ 120 Volts = 0.72kW
- Amps @ 120 Volts = 6.0 Amps
- Always consult local and national electric & plumbing codes.
- Floor should be level surface of hard material, capable of supporting fully loaded refrigerator.
- Minimum 3/8" clearance required for sides and top of refrigerator with 1" clearance at rear to allow for ease of installation, proper air circulation, and plumbing/electrical connections.
- When installing refrigerator adjacent to wall, cabinet or other appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 140° door swing, providing complete crisper access and removal. (Absolute 3" minimum clearance will ONLY allow for 90° door swing which will provide limited crisper access with restricted removal.)

- To ensure optimum performance, do not install in areas where temperature drops below 55°F or rises above 110°F and avoid installing in direct sunlight or close proximity to range, dishwasher or other heat source.
- For proper ventilation, front grille MUST remain unobstructed.
- Recess electrical outlet when possible.
- Optional Ice Maker Kit (PN# IM116) available for installation in ice maker-ready models only.
- Water recess on rear wall recommended to prevent water line damage.
- Water Pressure - Cold water line must provide between 30 and 100 pounds per square inch (psi).
- Copper tubing with 1/4" O.D. recommended for water supply line with length equal to distance from rear of unit to household water supply line plus 7 additional feet. Optional Water Supply Installation Kits available.

OPTIONAL ACCESSORIES

- Ice Maker Kit - (PN# IM116).

Product Dimensions

Height	12-7/8"
Width	21-3/4"
Depth	18-1/2"

More Easy-To-Use Features

Ready-Select™ Controls

Easily select options with the touch of a button.

Auto One-Touch Options

Our microwaves feature easy-to-use one-touch buttons so you can cook beverages, baked potatoes, popcorn, fresh veggies or even add thirty seconds with the touch of a button.

Effortless™ Defrost

Makes it easy to defrost almost anything, quickly and evenly.

Effortless™ Reheat

Reheat almost anything at the touch of a button.

Multi-Stage Cooking

Our Multi-Stage Cooking option allows you to program power levels and cooking times in advance, so you can program it to defrost, cook and keep a meal warm all at once.

10 Cooking Power Levels

Provides the versatility needed to prepare everything from frozen pizza to pot roast quickly and easily.

Control Lock Option

Electronic Clock/Timer

Helps you keep track of cook times.

Attractive Stainless Steel Exterior

Interior Light

Illuminates the contents of the microwave for increased visibility.

Large Glass Turntable

Even large items fit on our large glass turntable.

Available in:

Stainless

Welch Allyn®

30" Integrated Wall Panel (REF 77790-3, 4, 5)

Manual part no. 725898, 80021929 Ver. B Revised 2017-04
© 2017 Welch Allyn

WARNING Welch Allyn is not responsible for the integrity of any mounting installation. Welch Allyn recommends that customers contact their Biomedical Engineering Department or maintenance service to ensure professional installation for safety and reliability of any mounting accessory.

1. Choose a location for the panel near the examination table and an electrical outlet.

Sample room layout

1. Panel
2. Examination table

2. On the selected wall, find and mark the studs, and choose the panel height and corresponding height for the mounting rail bracket.

Recommendation: Place the bracket 63 in. (160 cm) from the floor.

3. Affix the mounting rail bracket to two studs at the selected height using the available screws.

Caution Ensure that the upper "lip" of the bracket sticks out from the wall and that the bracket is level.

4. Hang the panel on the mounting rail bracket.

WARNING Ensure that the channel on the back of the panel fully engages the mounting rail bracket. The panel should be level and flush to the wall.

5. Secure the unit to the wall using the "A" screw.

WARNING Failure to install this security screw may result in personal injury and equipment damage.

6. Mount the Welch Allyn products to the panel according to the figures on the reverse side of this instruction sheet.

Aneroid blood pressure gauge; position the gauge bottom on the pre-installed screw and then secure the top of the gauge using the two additional screws provided.

SureTemp® Plus thermometer; position the thermometer on the pre-installed screws and then secure it with the two additional screws provided.

Install the remaining products on the pre-installed screws.

For diagnostic systems without SureTemp thermometry, cover the unused screw holes with the FastCaps provided.

Identification:

Diagnostic Integrated Wall Systems and Transformers, Green Series 777. Owner provided. Size and configuration as selected by Owner. Contractor to install and provide appropriate blocking and connections. Manufacturer: Baxter - Hillrom|Welch Allyn or approved equal.

Welch Allyn®

34" Integrated Wall Panel (REF 77790-3, 4, 5)

Manual part no. 718345, 80017426 Ver. B Revised 2016-06
© 2016 Welch Allyn

WARNING Welch Allyn is not responsible for the integrity of any mounting installation. Welch Allyn recommends that customers contact their Biomedical Engineering Department or maintenance service to ensure professional installation for safety and reliability of any mounting accessory.

1. Choose a location for the panel near the examination table and an electrical outlet.

Sample room layout

1. Panel
2. Examination table

2. On the selected wall, find and mark the studs, and choose the panel height and corresponding height for the mounting rail bracket.

Recommendation: Place the bracket 63 in. (160 cm) from the floor.

3. Affix the mounting rail bracket to two studs at the selected height using the available screws (anchors are provided for additional support).

If studs are not available, use three anchors and screws.

CAUTION Ensure that the upper "lip" of the bracket sticks out from the wall and that the bracket is level.

4. Hang the panel on the mounting rail bracket.

WARNING Ensure that the channel on the back of the panel fully engages the mounting rail bracket. The panel should be level and flush to the wall.

5. Secure the unit to the wall using the "A" screw.

WARNING Failure to install this security screw may result in personal injury and equipment damage.

6. Mount the Welch Allyn products to the panel according to the figures on the reverse side of this instruction sheet.

Aneroid blood pressure gauge: position the gauge bottom on the pre-installed screw and then secure the top of the gauge using the two additional screws provided.

SureTemp® Plus thermometer: position the thermometer on the pre-installed screws and then secure it with the two additional screws provided.

Install the remaining products on the pre-installed screws.

SUPER ERECTA® SHELVING SYSTEM

Genuine Metro

LEARN MORE

**The easiest way
to build Shelving.**

**SHELVING
ASSEMBLY**

Super Erecta® Shelving System

The original wire storage system.

A storage system that defines the extent of space, Super Erecta's revolutionary concept was fresh and innovative from its start — nearly 50 years ago. It has continued to evolve, with nearly 100 highly specialized accessories, aimed at meeting the diversity of today's challenges.

- **Adjustable:** Shelves can be set and repositioned at precise 1" (25mm) increments along the length of the numbered posts.
- **Unique Design:** Open-wire design minimizes dust accumulation, allows a free circulation of air, and greater visibility of stored items.
- **Mobile:** Full choice of caster types available for mobile applications.

SiteSelect posts provide a visual guide for positioning and adjusting shelves, saving considerable time during assembly and adjustment. An easy-to-identify double groove, every 8" (203mm), offers a quick way to align all shelves.

SUPER ERECTA® SHELVING SYSTEM

Available Finishes

Wire
& Solid

Type 304 Polished Stainless Steel
Addresses the most aggressive applications and environments. All-stainless solid and wire options exist for high temperature automated cart wash and autoclave applications.

Green
& Gray

Metroseal™ Epoxy
Corrosion resistant finish for wet or high humidity environments with a 12-year warranty against rust and corrosion. Microban antimicrobial is built into the finish to keep the product "cleaner between cleanings."

Chrome Plating
Nickel-chrome finish for dry, low humidity environments. Metro's durable chrome finish includes a protective lacquer coat.

Brite
Economical, chromate finish for dry, low humidity environments. Metro's Brite finish provides the look of chrome and includes a protective lacquer coat.

Standard Epoxy and Designer Finishes

A pleasing aesthetic and basic protection for dry environments.

Available Posts

Standard Stationary Post with adjustable leveling foot. Stainless models also feature a stainless leveling foot. Use Foot Plates for greater stability.

Standard Mobile-Ready Posts accept Metro stem casters. Use these for the majority of standard duty transport and movable storage applications.

Cart Wash and Autoclave Applications
Swaged stainless post has a fastened aluminum post cap and is specifically designed to withstand high temperatures. See page 59 for part numbers.

Heavy Duty Transport
Staked post attaches to a dolly truck to address abusive transport applications. The reinforced connection between the base receptacle and post provides a more secure connection to the dolly truck. See page 60 for part numbers.

SUPER ERECTA® SHELVING SYSTEM

Heavy-Duty Dunnage Shelves — {10.45}

Enhance the weight-bearing capacity. 36" (914mm) shelf holds 1,600 pounds (725kg) (uniformly distributed); 48" (1219mm) shelves carry up to 1,300 pounds (590kg); 60" (1524mm) shelves bear up to 1,000 pounds (453kg).

- Removable wire mat: Lifts off for easy cleaning. .31" (7.9mm) diameter wire. Support frames: 1" (25mm) square tubing.

Important: In stationary shelving, stability decreases as the ratio of height to width increases and when heavier loads are placed on upper shelves. Shelving stability is attained by keeping units as wide and low as possible, and placing heavy loads low on the shelving unit.

Cantilever Shelves — {10.05}

Adds convenient space above a storage unit. Drop mat design creates a retaining ledge around the entire 12" (305mm) deep shelf. Remember to order rear posts taller than front posts to accommodate these shelves.

Note: Rigid casters are held in place by a connecting channel. When ordering, shelf width must be provided. Rigid connecting channel (stainless steel): Cat. No. 14RS, 18RS, 21RS, 24RS, 30RS, or 36RS. Load Height for all 5M and 5MP casters — 6.09" ± .06" (155 ± 1.5mm). Load Height for 4LD caster — 4.62" ± .06" (118 ± 1.5mm). Load Height for 5LD caster — 5.06" ± .06" (143 ± 1.5mm). Brakes are foot-operated.

Plated Stem Casters

Use with Super Erecta posts and shelves (see pages 42 and 48) to create a mobile shelving unit to meet your special needs. Stem casters are shipped with donut bumper at no additional charge.

Donut Bumper

Donut Bumpers — {11.40}

- Non-phthalate, flexible vinyl material

Diameter (in.) (mm)	Height (lbs.) (kg)	Cat. No.	Each
3.5 89	.75 19	9992DB*	9.40
5.5 140	.81 21	9992N	14.60

*Included with each Super Erecta stem caster as noted on previous page.

Low Profile 3" Casters — {11.20}

Ideal for creating shorter height mobile units for undercounter use. Threaded stem fits stationary posts with threaded base. (Remove leveling foot and install caster)

Wheel Diameter (in.) (mm)	Face (in.) (mm)	Load Rating (lbs.) (kg)	Type	Wheel Thread	Temperature Range (Continuous Usage) (Fahrenheit) (Celsius)	Cat. No.
3	76	.94 24	100 45	Threaded Stem, Swivel	Resilient Rubber -30° - 160° -34° - 71°	3TM
3	76	.94 24	100 45	Threaded Stem, Swivel/Brake	Resilient Rubber -30° - 160° -34° - 71°	3TMB

Note 1: Not intended for carts that travel long distances.

3TM

3TMB

Decorative Casters — {10.06}

- Black nylon housing with non-marking polymer tread.
- 2.5" (63mm) models have threaded stem and attach to stationary shelving posts.
- 4" (100mm) casters include threaded insert for use with mobile posts.

Type	Diameter (in.) (mm)	Fits Post Type	Cat. No.
Swivel/Brake	2.5 63	Stationary	HDC3BB
Swivel	4 100	Mobile	HDC5B
Swivel/Brake	4 100	Mobile	HDC5BB

Castors shipped with post inserts for adaptability to mobile posts.

5 127	1.25 32	300 135	Stem/Rigid	Polyurethane, Flat	-20°-120° -29°-49°	5PCR	

Note 1: Rigid casters are held in place by a connecting channel. When ordering, shelf width must be provided. Rigid connecting channel (aluminum) for 5PCR casters: Cat. No. P14RC, P18RC, P21RC, P24RC, P30RC, or P36RC. **Not suitable for cart wash and autoclave applications.**

BETTER

Polymer & Stainless Total-Guard Casters — {52.20}

Advanced rust & moisture protection - nylon rig, Stainless stem, TPE wheel tread.

Break caster has total lock function. When the brake is engaged, the caster wheel and swivel are locked.

- Best for high humidity chambers, MRI areas, RFID storage
- Very good chemical resistance
- Good for cart wash chambers
- Quieter than polyurethane options

5PSTE

Profile Containers

Attractive design suits many decors.

- Wall mounting keeps the container out of pedestrian traffic and allows for floor cleaning
- Spring-loaded swing door helps control odor and hides trash from public view
- Comes with complete hardware and instructions for wall mounting
- Factory Mutual (FM) approved for fire safety when wall mounted; ideal for hallways and other uncontrolled public areas
- Slim design limits intrusion into corridors, washrooms, kitchens, and other limited space areas

Weigh Beam Eye-Level Physician Scales

DETECTO's innovatively-designed, analog physician scales feature dual-readings on either side of the weigh beam making weighing simple and fast. Pounds, kilograms, or pounds/kilograms are all available on the aluminum easy-to-read beam. The dual-reading height rod measures in inches

or centimeters at a glance, and the platform cover can be easily removed for cleaning. The scale's capacity may be increased by using an optional counterweight. The scales are 59 inches (150 cm) high. Models are available with height rod, wheels and handpost. Stainless steel models are also available.

DETECTO's dual-reading, die-cast aluminum on black insert weighbeam is easy to read and makes weighing simple and fast.

Floor Mounted Mop Sink Installation Instructions

Detail

- 20 gauge 304 stainless steel construction
- Easy Installation

Includes

- Floor Mounted Mop Sink
- Mounting Bracket
- Drain Assembly

Instructions

1. Install Mounting Bracket to wall with mounting holes on the bottom with the bottom edge of the bracket at floor level as shown in the drawing to the right.
2. Install Drain Assembly to Mop Sink without installing the Rubber Gland, Compression Nut, or Strainer Plate yet
3. Fit Mop Sink over 2" IPS pipe stub while fitting rear strap onto Mounting Bracket. 2" IPS pipe stub must protrude 3" from floor and x" from the wall

Model	x = Inch's from the Wall
MS-1818	9"
MS-2424	12"

4. Insert Rubber Gland over 2" IPS pipe stub (may use liquid soap for easier installation)
5. Thread Compression Nut over Rubber Gland into drain body. Use Drain Key and flat screw driver to tighten Compression Nut to tightly seal Rubber Gland and IPS pipe stub.
6. Remove Drain Key and install Strainer Plate to the top of the drain
