Cameras: Combined between business units. Network live feeds for facilities and local NVR servers for inspection services storage of recorded video (30days).

1. 25 cameras in total
2. Axis Camera models/quantities per the attached drawing:
  - P3245 (interior single lens): Qty 6
  - M5000G (interior quad PTZ): Qty 19
  - 5654E (exterior PTZ): Qty 0
4. March Network NVR sized for 30 days and must have ability to accommodate up to 6 additional cameras for future expansion.
5. NVR and Monitor to be located in Inspectors Office.

Access Control: Vanderbilt

1. Layout only shows general guidance as to what doors will need access control. You will want to refer to Standard Design Criteria, Module 2A, Section 5.7.4 for specific equipment at any given door. Generally speaking:
  - a. All doors labeled with a 'CR' refers to a door with a card reader (read in), door contact, request to exit motion sensor and appropriate selection of either door strike or maglock.
  - b. All doors labeled with a 'DA' and 'DC' are exit only doors and will only be provided with a door contact monitored by the access control system and a physical door alarm to sound locally when opened without authorization.
  - c. Access Control Headend location TBD

Attached specifications for review include:

1. Handbook AS-503 Standard Design Criteria. Applicable sections are Sections 5.7 of Modules 1 and 2a.
2. USPS CCTV Security Design Requirements. Note: Securitas is no longer required nor recommended.
3. USPS SDC 281304 ePACS Requirements
